INTRALOT's
Lottery Solution
is the choice you make
for a modern Lottery
operation
and an amazing
player experience

INTRALOT LOTTERY SOLUTION

INTRALOT's new holistic and modular Lottery Solution incorporates everything a modern Lottery operation needs to offer a thrilling gaming experience.

The Solution consists of 4 well-orchestrated main areas:

- ▶ LotosX, the most parametrical games and draw management platform.
- ▶ A rich set of enabling platforms, managing retailers, players, content and devices, to address all the operational aspects of the Lottery.
- ▶ All the retailer and player touchpoints.
- ▶ An advanced Governance suite that safeguards end-to-end security and integrity.

Modular & Flexible

It is built on an open, microservices-based architecture with decoupled components for flexible and fast integrations. It is scalable and easily expandable, to enable best-of-breed solutions.

Omni-Channel

INTRALOT's Lottery Solution offers advanced omni-channel capabilities, to create one unified, gaming experience for the player; numerous parametrization and customization options per channel and a single centralized CMS platform to serve all touchpoints.

Player-Centric

Having the player at the center, the solution is designed to optimize the entire player journey, from offering entertaining and responsible gaming experiences to driving player engagement and retention.

LotosXi

A complete i-lottery solution which offers an immersive, personalized, digital gaming experience consisting of cutting-edge technology, platforms of superior performance and a rich revenue-generating games' portfolio.

Operational Excellence Tools

INTRALOT's Lottery Solution provides the tools that guarantee operational excellence:

- ▶ Stable and robust products, certified to run in every regulated operation with responsibility and safety.
- ▶ Player and retailer terminals that combine innovative design with enhanced ergonomics.
- ▶ Automation of game and draw management, as well as real-time parametrization and easy games' configuration that ensures the fastest time-to-market.
