Sales Overview

Total revenue increased by €128,3 million, or 13,4%, from €957,5 million in the nine months period ended September 30, 2016 to €1.085,8 million in the nine months period ended September 30, 2017. This increase was mainly driven by increased revenue in licensed operations segment.

Revenue by Business Activity

The following table sets forth our revenue for each business activity for the nine months period ended September 30, 2017 and 2016.

Revenue by Business Activity (€ in millions)	nine months ended September 30,		% change
(unaudited)	2016	2017	Change
Licensed operations ¹	715,0	841,6	+17,7%
Management contracts	82,2	79,5	-3,3%
Technology and support services ¹	160,3	164,7	+2,7%
Total	957,5	1.085,8	+13,4%

¹ INTRALOT Australia from 1Q17 onwards has been re-classed under "Technology and support services" from "Licensed operations" previously.

Revenue in our licensed operations activity line increased by $\[\]$ 126,6 million, or 17,7%, from $\[\]$ 715,0 million in the nine months period ended September 30, 2016 to $\[\]$ 841,6 million in the nine months period ended September 30, 2017. The increase is attributed to higher revenues in Bulgaria ($\[\]$ 420,2 million), mainly due to Eurobet's consolidation after 1H16 2016 (Eurobet's effect has been partially offset by the declining sports betting revenue in Bulgaria due to decreasing payout), Poland ($\[\]$ 42,2 million-following the recent regulatory changes), Azerbaijan with additional revenues of $\[\]$ 32,5 million following its strong performance, and Jamaica ($\[\]$ 47,8 million) as a result of the improved performance of its Numerical games portfolio and the recent race track acquisition.

Revenue in our management contracts activity line decreased by $\[\in \] 2,7 \]$ million, or 3,3%, from $\[\in \] 82,2 \]$ million in the nine months period ended September 30, 2016 to $\[\in \] 79,5 \]$ million in the nine months period ended September 30, 2017. The decrease was mainly affected by the softer performance of Turkey ($\[\in \] -3,1 \]$ million) and Russia ($\[\in \] -1,1 \]$ million), with Morocco top line increase acting as a counterweight ($\[\in \] +1,5 \]$ million).

Revenue in our technology and support services line increased by $\[\in \]$ 4,4 million, or 2,7%, from $\[\in \]$ 160,3 million in the nine months period ended September 30, 2016 to $\[\in \]$ 164,7 million in the nine months period ended September 30, 2017. This increase was mainly due to INTRALOT's new contract in Chile with revenues of $\[\in \]$ 45,1 million. All other entities performance virtually counterbalanced the revenue contraction in our US operations ($\[\in \]$ 413,7 million) due to last year's record Powerball jackpot (in part offset by 3Q17 Powerball Jackpot) and the sale of multi-play self-service lottery terminals in Ohio in 2Q16. The increased revenues in Argentina (up by $\[\in \]$ 42,8 million), the increased revenues of INTRALOT SA ($\[\in \]$ 42,9 million-primarily due to the positive effect of our contracts in Kenya and Peru following the recent M&A transaction), the Netherlands ($\[\in \]$ 41,2 million), as well as the increased revenues of INTRALOT Gaming Services Pty Ltd (Australia) by $\[\in \]$ 0,6 million are the main drivers for mitigating the US sales gap. Additionally, there is the positive effect by $\[\in \]$ 5,4 million due to the reclassification of INTRALOT Australia from the prior characterization as "Licensed operations" to "Technology and support services" from 1Q17 onwards (a revenue which includes an approx. $\[\in \]$ 4 million sale of a software license right).

Gross Profit Margin

The Gross profit margin in 9M17 was 17,6%, practically unchanged from 9M16. The increased gross profit margin of our B2B/B2G operations, fully counterbalanced the top line contract type mix change (9M16 had larger B2B/B2G contribution, i.e. 25,1% vs. 22,4% in 9M17) compared to last year. Overall, Gross Profit increased by 13,4% (ξ +22,5 million) compared to the 9M16 levels. Adjusting for Eurobet and the Chilean contract, Gross Profit increased by ξ 16,2 million (+9,6%) (Pro-forma assumption: For a like-for-like comparison, 1H17 results of Eurobet and both 9M17 and 9M16 results of the Chilean contract are excluded)

Other Operating Income

Other operating income decreased by \le 1,3 million, or 9,1%, from \le 14,3 million in the nine months period ended September 30, 2016 to \le 13,0 million in the nine months period ended September 30, 2017. The major driver of this decrease was a provision reversal related to a litigation case about stamp duty in Turkey in the nine months of 2016.

Selling Expenses

Selling expenses increased by €2,8 million, or 7,0%, from €39,9 million in the nine months period ended September 30, 2016 to €42,7 million in the nine months period ended September 30, 2017. This increase was primarily due to higher advertising costs in Turkey, Poland and Azerbaijan.

Administrative Expenses

Administrative expenses increased by 4,7 million, or 7,4%, from €63,3 million in the nine months period ended September 30, 2016 to €68,0 million in the nine months period ended September 30, 2017. This increase was primarily due to higher costs in USA, as well as in Jamaica because of the new Horseracing project started operations on March 2017.

Research and Development Expenses

Research and development expenses increased by 0,8 million or 19,5%, from €4,1 million in the nine months period ended September 30, 2016 to €4,9 million in the nine months period ended September 30, 2017.

Other Operating Expenses

Other operating expenses increased by ≤ 0.7 million, or 46.7%, from ≤ 1.5 million in the nine months period ended September 30, 2016 to ≤ 2.2 million in the nine months period ended September 30, 2017. This increase was primarily due to the launch of the new project in Chile in 2017.

EBITDA

As a result of the above, EBITDA increased by €13,0 million, or 10,5%, from €124,3 million in the nine months period ended September 30, 2016 to €137,3 million in the nine months period ended September 30, 2017 while EBITDA margin decreased from 13,0% in the nine months period ended September 30, 2016 to 12,6% in the nine months period ended September 30, 2017, as the improved B2B/B2G contract margin (vs. LY) didn't fully mitigate the contract type mix change. LY margin has been positively impacted by last year's record Powerball jackpot and Ohio terminals sale effects, compared to this year's smaller jackpot and software license right sale in Australia.

Income / (expenses) from participations and investments

Income / (expenses) on participations and investments improved by €3,0 million, from expense of €2,0 million in the nine months period ended September 30, 2016 to income of €1,0 million in the nine months period ended September 30, 2017. This improvement was primarily due to higher losses from investments and securities in the nine months period ended September 30, 2016, because of the relevant bond buybacks.

Gain/(loss) from assets disposal, impairment and write-off

Gain/(loss) from assets disposal, impairment and write-off improved by 0.8 million, from loss of 1.8 million in the nine months period ended September 30, 2016 to loss of 1.0 million in the nine months period ended September 30, 2017. This improvement was primarily due to higher losses from land disposal in Bulgaria in 2016, partially set-off by higher impairment losses in Moldova in 2017.

Interest and Similar Expenses

Interest and similar expenses decreased by €10,3 million, or 18,8%, from €54,8 million in the nine months period ended September 30, 2016 to €44,5 million in the nine months period ended September 30, 2017. This decrease was primarily due to lower interest expenses following the 2018 Notes refinancing in September 2016, as well as to lower LG costs in the nine months period ended September 30, 2017,

partially off-set by the accelerated issue costs amortization due to the syndicated facility repayment in September 2017.

Interest and Related Income

Interest and related income decreased by €2,6 million, or 32,9%, from €7,9 million in the nine months period ended September 30, 2016 to €5,3 million in the nine months period ended September 30, 2017, due to lower interest income on bank deposits in the nine months period ended September 30, 2017.

Profit/(loss) from equity method consolidation

In the nine months period ended September 30, 2016 we had a net loss from equity method consolidation of €2,6 million, compared to a net loss €3,3 million in the nine months period ended September 30, 2017, mainly derived from of our associate companies in Asia.

Operating Profit before Tax

As a result of the above and due to exchange differences from a loss of €1,5 million in the nine months period ended September 30, 2016 to a loss of €5,9 million in the nine months period ended September 30, 2017 and increased depreciation n and amortization by €0,8 million, operating profit before tax increased by €18,6 million, or 97,9%, from a profit of €19,0 million in the nine months period ended September 30, 2016 to a profit of €37,6 million in the nine months period ended September 30, 2017.

Taxes

Taxes increased by €1,2 million, or 5,5%, from €21,7 million in the nine months period ended September 30, 2016 to €22,9 million in the nine months period ended September 30, 2017. This increase was primarily due to the higher taxable profits in Azerbaijan and Australia in the nine months period ended September 30, 2017.

Net Profit/(Loss) from Continuing Operations (a)

As a result of the above, net profit/(loss) from continuing operations improved by €17,4 million, from a loss of €2,7 million in the nine months period ended September 30, 2016 to a profit of €14,7 million in the nine months period ended September 30, 2017.

Net Profit/(Loss) from Discontinued Operations (b)
