Agile in leveraging every option

Discover the beauty of simplicity in **holistic** gaming solutions

INTRALOT has been heavily investing in a next-generation portfolio of intelligent products and solutions to support **Lotteries' modernization in the digital era**. Product design focuses on players' modern needs, offering entertaining and responsible gaming experiences, through all distribution channels. A comprehensive holistic offering aims to drive player engagement and retention at every single step of the player journey.

INTRALOT has been enriching its portfolio with software and hardware products exploiting the latest technology developments and trends. Scalable, flexible, and fully parametrical, thin-client solutions for lottery and sports betting operators are complemented with CRM products which manage efficiently both the player and the retailer.

INTRALOT follows a global growth strategy designed around synergies with local partners that aims to expand business development capabilities worldwide and diversify our product portfolio.
