

PRESS RELEASE

Inteltek announces the creation of a global software development center in Turkey

November 23, 2018

On November 21, 2018, Inteltek, the business partnership of Turkcell and Intralot, capitalizing on 15 years of successful operation of the iddaa game, announces its plans for the creation of a global research and software development center in the area of mobile games in Turkey. In the first phase this center will employ 100 engineers.

Through this investment Inteltek aims to leverage the talent of Turkish youth for the creation and export of technology and software internationally and contribute towards the transformation of Turkey into a global center of excellence for software development.

The new venture is expected to have a significant impact in boosting Turkey's footprint and international competitiveness in a high demand industry.
