## **Auditor**

Stefan Bonello Ghio 8/1 Magazines Junction Floriana FRN 1142 Malta

Directors' Responsibilities

For the Year Ended 31 December 2024

Company law requires the directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- \* adopt the going concern basis unless it is inappropriate to presume that the Company will continue in business;
- \* select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- \* account for income and charges relating to the accounting period on the accruals basis;
- \* value separately the components of asset and liability items; and
- report comparative figures corresponding to those of the preceding accounting period.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act (Cap. 386) enacted in Malta. This responsibility includes designing, implementing and maintaining such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements set out on pages 3 to 15 were approved and authorised for issue by the Board on 11 February 2025 and signed on its behalf by:

Emmanouil Lagouros

CEO / Director

Angela Calleja

Director

#### 1 Basis of Preparation

# 1.1 Basis of Measurement and Statement of Compliance

The financial statements of Maltco Lotteries Limited (the "Company") have been prepared in accordance with the Accountancy Profession (General Accounting Principles for Small and Medium-Sized Entities) Regulations, 2015 and the Schedule accompanying and forming an integral part of those Regulations ("GAPSME"). The financial statements have been prepared on the historical cost basis except for land and buildings which are stated at their revalued amount. These financial statements present information about the Company as an individual undertaking.

## 1.2 Functional and Presentation Currency

The financial statements are presented in Euro (EUR), which is the Company's functional currency.

## 2 Significant Accounting Policies

## 2.1 Property, Plant and Equipment

# 2.1.1 Recognition and Measurement

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that the future economic benefits that are associated with the asset will flow to the entity and the cost can be measured reliably. Property, plant and equipment are initially measured at cost comprising the purchase price, any costs directly attributable to bringing the assets to a working condition for their intended use, and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure is capitalised as part of the cost of property, plant and equipment only if it enhances the economic benefits of an asset in excess of the previously assessed standard of performance, or it replaces or restores a component that has been separately depreciated over its useful life.

After initial recognition, property, plant and equipment is carried under the cost model, that is at cost less any accumulated depreciation and any accumulated impairment losses, or under the revaluation model, that is at their fair value at the date of the revaluation less any accumulated depreciation and any accumulated impairment losses.

After initial recognition, land and buildings are carried under the revaluation model while other items of property, plant and equipment are carried under the cost model. Revaluations are made for the entire class of land and buildings at least every five years or with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the reporting date. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

# 2.1.2 Depreciation

Depreciation is calculated to write down the carrying amount of the asset on a systematic basis over its expected useful life. Depreciation of an asset begins when it is available for use and ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) or the date that the asset is derecognised. The depreciation charge for each period is recognised in profit or loss.

Land is not depreciated. Depreciation is charged to the income statement on a straight-line basis over the estimated useful life of each part of an item of property, plant and equipment. The estimated useful lives are as follows:

Fixtures and fittings
Computer Equipment

10 years 4 years

#### 2.1.3 Depreciation Method, Useful Life and Residual Value

The depreciation method applied, the residual value and the useful life are reviewed on a regular basis and when necessary, revised with the effect of any changes in estimate being accounted for prospectively.

# 2.1.4 Derecognition of Property, Plant and Equipment

Property, plant and equipment are derecognised on disposal or when no future economic benefits are expected from their use or disposal. Gains and losses arising from derecognition represent the difference between the net proceeds (if any) and the carrying amount and are included in profit or loss in the period of derecognition.

## 2.2 Financial Assets, Financial Liabilities and Equity

A financial asset or a financial liability is recognised on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially recognised at their fair value plus in the case of financial assets and financial liabilities not classified as held for trading and subsequently measured at fair value, transaction costs attributable to the acquisition or issue of the financial assets and financial liabilities.

Financial assets and financial liabilities are derecognised if and to the extent that, it is no longer probable that any future economic benefits associated with the item will flow to or from the entity.

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

A financial instrument, or its component parts, is classified as a financial liability, financial asset or an equity instrument in accordance with the substance of the contractual arrangement rather than its legal form.

## 2.2.1 Trade and Other Receivables

Trade and other receivables are stated at their nominal value unless the effect of discounting is material in which case trade and other receivables are measured at amortised cost using the effective interest method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence of impairment.

# 2.2.2 Trade and Other Payables

Trade and other payables are stated at their nominal value unless the effect of discounting is material, in which case trade and other payables are measured at amortised cost using the effective interest method.

# 2.2.3 Share Capital Issued by the Company

Ordinary shares issued by the Company are classified as equity. Dividends to ordinary shareholders are debited directly to equity and are recognised as liabilities in the period in which they are declared.

#### 2.3 Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is calculated using the firstin, first-out method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour and a proportion of fixed and variable production overheads that are incurred in converting materials into finished goods, based on the normal level of activity. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the costs to be incurred in marketing, selling and distribution.

# 2.4 Impairment

The Company's property, plant and equipment are tested for impairment.

## 2.4.1 Property, Plant and Equipment

The carrying amounts of the Company's property, plant and equipment are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The recoverable amount of an asset is the higher of its fair

value less costs to sell and its value in use.

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognised and the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognised immediately in profit or loss, unless they relate to an asset which is carried at revalued amount, in which case they are treated as a revaluation decrease to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that asset.

The carrying amounts of Company's assets are also reviewed at each balance sheet date to determine whether there is any indication that an impairment loss recognised in prior periods may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss previously recognised is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Impairment reversals are recognised immediately in profit or loss, unless they relate to an asset which is carried at revalued amount, in which case they are treated as a revaluation increase unless an impairment loss on the same asset was previously recognised in profit or loss.

## 2.5 Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term investments that are held to meet short-term cash commitments rather than for investment or other purposes. Bank overdrafts, which are repayable on demand and form an integral part of the Company's cash management, and are presented in current liabilities in the balance sheet.

#### 2.6 Income Taxes

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit or loss except to the extent that the tax arises from a transaction or event which is recognised directly in equity, in which case it is recognised in equity.

Current tax is based on the taxable profit for the year, as determined in accordance with tax laws, and measured using tax rates, which have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised on temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The Company recognises a deferred tax liability in respect of all taxable temporary differences and a deferred tax asset in respect of all deductible temporary differences except to the extent that such deferred tax liability arises from the initial recognition of goodwill or the deferred

2023

2024

tax asset/liability arises from the initial recognition of an asset or liability which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (loss). Recognition of a deferred tax asset is however limited to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The Company reassesses any unrecognised deferred tax asset at each balance sheet date to determine whether future taxable profit has become probable that allows the deferred tax asset to be recovered.

#### 2.7 Income

#### 2.7.1 Provision of Services

Revenue from the provision of services is recognised when the service has been fully rendered to the customer, the inflow of economic benefits associated with the transaction is probable.

Revenue is measured at the fair value of the consideration received or receivable, net of any trade discounts and volume rebates allowed by the entity.

## 2.8 Employee Benefits

The Company contributes towards the state pension in accordance with local legislation. The only obligation of the Company is to make the required contributions. Costs are expensed in the period in which they are incurred.

# 2.9 Foreign Currencies

Transactions denominated in foreign currencies are converted to the functional currency at the rates of exchange ruling on the dates on which the transactions first qualify for recognition. Monetary assets and monetary liabilities denominated in foreign currencies at balance sheet date are translated at year end closing rates of exchange. Any exchange differences arising on the settlement of monetary assets and monetary liabilities, or on translating foreign denominated monetary assets and liabilities at the balance sheet date at rates different from those at which they were previously translated, are recognised in profit or loss.

## 3 Profit before Tax

This is stated after charging / (crediting) the following:

Provisions for litigations and claims	0	1,500,000
	======	

In August 2020, a lawsuit was filed by a punter against the Company and Aktiebolaget Travoch Galopp (Swedish Horse Racing Totalisator Board) (hereunder referred to as "ATG"), a third-party horse betting game provider, having its registered offices in Sweden. The punter claimed payment from the parties contending that it had winnings amounting to €1.5 million on bets placed on horse races administered by ATG, praced from one of the company's outlet. ATG refused the payment of the requested amount on the basis that the player had breached ATG's betting regulations.

During the year the dispute was settled out of court, with compensation agreed and paid by the company. As a result the case was withdrawn from the court.

**Independent Auditor's Report** 

To the Shareholders of Maltco Lotteries Limited

Report on the Audit of the Financial Statements

#### **Opinion**

I have audited the financial statements of Maltco Lotteries Limited (the "Company"), set out on pages 3 to 15, which comprise the balance sheet as at 31 December 2024, the income statement, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements give a true and fair view of the balance sheet of the Company as at 31 December 2024, and of its financial performance for the year then ended in accordance with the Accountancy Profession (General Accounting Principles for Small and Medium-sized Entities) Regulations, 2015 and the Schedule accompanying and forming an integral part of those Regulations (GAPSME) and have been properly prepared in accordance with the requirements of the Companies Act (Cap. 386).

#### **Basis for Opinion**

I conducted my audit in accordance with International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in accordance with the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) in Malta, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Responsibilities of the Directors

The director is responsible for the preparation of the financial statements that give a true and fair view in accordance with GAPSME, and for such internal control as the director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the director is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

#### Independent Auditor's Report (continued)

#### To the Shareholders of Maltco Lotteries Limited

# Auditor's Responsibilities for the Audit of the Financial Statements (continued)

Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

# Report on Other Legal and Regulatory Requirements

Other Matters on which I am required to report by exception by the Companies Act, 1995 (Chapter 386, Laws of Malta) (the "Act")

i have nothing to report in respect of the following matters where the Act requires me to report to you if, in my opinion:

adequate accounting records have not been kept by the Company; or

the Company's financial statements are not in agreement with the accounting records; or

I have not obtained all the information and explanations which, I require for the purpose of my audit; or

certain disclosures of director's remuneration specified by law are not made in the financial statements, giving the required particulars in my report.
