INTRALOT Chairman & CEO Sokratis P. Kokkalis noted:

"INTRALOT's 2022 Financial Year results reflect robust performance and continuous improvements in all key financial indicators as the company delivered on its main business goals and as a result of intense efforts for capital structure optimization and management reorganization to boost growth and efficiencies. Furthermore, during 2022, we successfully completed a €129m share capital increase at parent level that attracted US based fund Standard General as strategic investor while the proceeds were mostly used to regain control of 100% of Intralot, Inc., our US subsidiary. In parallel we repaid the US-issued 2025 PIK Toggle Notes by use of a mix of a new \$230m Term Loan from a Consortium of US banks and company's cash, and secured a new revolving credit facility of \$50m. In the light of our significantly improved position, we look forward to tapping new growth opportunities in the US and the rest of the world as one of the top gaming technology providers worldwide and working towards refinancing the 2024 Notes."

¹ OPEX line presented excludes the capital structure optimization expenses.

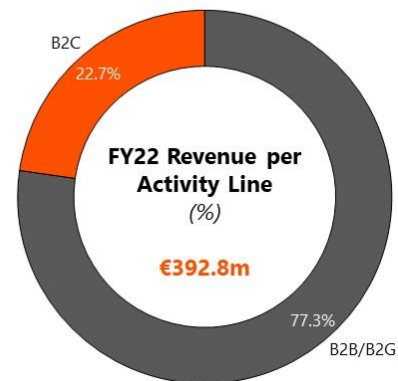

² The Group defines "EBITDA" as "Operating Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) to net monetary position", "Exchange Differences", "Interest and related income", "Interest and similar expenses", "Income/(expenses) from participations and investments", "Write-off and impairment loss of assets", "Gain/(loss) from assets disposal", "Reorganization costs" and "Assets' depreciation and amortization".

OVERVIEW OF RESULTS

REVENUE

Reported consolidated **revenue** posted a decrease compared to FY21, leading to a total revenue for the twelve-month period ended December 31st, 2022, of €392.8m (-5.1%).

- From a contribution perspective, Lottery Games remain our largest contributor to Group turnover with a share of 63.8%, followed by Sports Betting with a share of 14.6%, VLTs monitoring with a share of 12.0%, Technology contracts with a share of 9.3%, and Racing with a share of 0.3%.
- Reported consolidated revenue for the twelve-month period is lower by €-21.2m year over year. The main factors that drove top line performance per Business Activity are:
 - €-43.7m (-32.9%) from our **Licensed Operations (B2C)** activity line with the variance driven by:
 - Lower revenue in **Malta** (€-51.5m or -54.0% y-o-y) due to the license expiration early July 2022 and
 - Higher revenue in **Argentina** (€+7.7m or +20.5% y-o-y), driven by local market growth. In local currency, current year results posted a +95.5% y-o-y increase.
 - €+19.5m (+8.3%) from our **Technology and Support Services (B2B/ B2G)** activity line, with the variance driven by:
 - Higher revenue in **US** operations (€+8.9m or +6.0% y-o-y) positively affected by the EUR depreciation (-11.0% versus a year ago – in average terms), offsetting the lower merchandise sale in local currency,
 - Higher revenue in **Croatia** (€+5.8m) following the full contribution of our new contract (late April 2021 launch),
 - Higher revenue in **Australia** (€+5.7m or +36.8% y-o-y) triggered by the return of our operations to pre COVID-19 levels and
 - Lower revenue from other jurisdictions (€-0.9m).

- €+3.1m (or +6.5%) from our **Management (B2B/ B2G)** contracts activity line with the variance driven by:

- Higher revenue from our **Turkish³** operations (€+1.7m), driven by Bilyoner's improved performance, favored by the growth of the online market. Performance in Euro terms was partially mitigated by the headwinds in Turkish lira (+31.1% Euro appreciation versus a year ago),
- Higher revenue in **Morocco** (€+0.9m) led by the market growth and
- Higher revenue from our **US** Sports Betting contracts in Montana and Washington, D.C. (€+0.4m).

Licensed Operations Pillar, FY22

Technology Services Pillar, FY22

Game Management Pillar, FY22

- On a quarterly basis, revenue decreased by 18.1% compared to 4Q21, leading to total revenue for the three-month period that started on October 1st, 2022, and ended on December 31st, 2022, of €91.0m. Decreased revenue for the quarter (€-20.2m) is primarily attributed to the license expiration in Malta. The decreased revenue y-o-y was partially offset by the favorable performance across most key regions.

³ Turkish figures have been restated based on IAS 29 (Financial Reporting in Hyperinflationary Economies) to reflect current purchasing power.

GROSS GAMING REVENUE & Payout

- Gross Gaming Revenue (GGR)** from continuing operations concluded at €343.9m in FY22, posting an increase of 2.6% (or €+8.6m) year over year, attributable to:

- the increase in the non-payout related GGR (+8.4% y-o-y or €+23.9m vs. FY21) driven by the improved performance across most key regions, followed by
- the decrease in the payout related GGR (-30.9% y-o-y or €-15.3m vs. FY21) arising mainly from the lower sales in Malta, in part mitigated by the better performance of Argentina and the lower payout ratio in Malta (-35.2% y-o-y on wagers from licensed operations⁴). FY22 Payout Ratio⁵ was lower by 2.6pps vs. FY21 (58.7% vs. 61.3%), significantly affected by the weighted contribution from our operations in Malta.

Gross Gaming Revenue & Payout, FY22
€m, %

- In 4Q22, GGR from continuing operations decreased by 3.9% (or €-3.5m y-o-y).

⁴ Licensed Operations Revenue also include a small portion of non-Payout related revenue, i.e., value-added services, which totaled €6.1m and €4.7m for FY22 and FY21 respectively, and €1.0m and €1.6m for 4Q22 and 4Q21 respectively.

⁵ Payout ratio calculation excludes the IFRS 15 impact for payments to customers.

OPERATING EXPENSES⁶ & EBITDA⁷

- **Total Operating Expenses** ended higher by €3.7m (or +3.9%) in FY22 (€99.8m vs. €96.0m), mainly impacted by the negative FX movements, offsetting the costs savings at HQ perimeter. On a quarterly basis, **Operating Expenses** posted an increase of €1.5m (or +5.5%) in 4Q22 (€29.6m vs. €28.0m in 4Q21).
- **Other Operating Income** from continuing operations ended at €24.9m presenting an increase of 15.2% y-o-y (or €+3.3m). On a quarterly basis, **Other Operating Income** exhibited an increase of 21.0% or €+1.2m. The bulk of income is mainly driven by the equipment attributed leases in the USA.

- **EBITDA** amounted to €122.9m in FY22, posting an increase of 11.3% (or €12.4m) compared to FY21. This growth was driven by the improved operating performance across most markets and the continuous cost containment initiatives.

- On a yearly basis, **EBITDA margin** on sales improved to 31.3%, compared to 26.7% in FY21 (+4.6pps).
- On a quarterly basis, **EBITDA** increased by €7.0m vs. FY21 (or 25.1%), while **EBITDA margin** on sales posted an increase of 13.2pps.

EBT / NIATMI

- **EBT** in FY22 amounted to €29.8m largely driven by the significant EBITDA contribution, the lower interest expenses, and the gains on net monetary position, while D&A remained at the same levels with the prior year. Compared to FY21, EBT posted a decrease of €7.3m, mainly due to the balance sheet optimization transactions one-off impact in the prior year.
- **NIATMI from continuing operations** in FY22 concluded at €6.3m compared to €26.6m in FY21. **NIATMI from total operations** in FY22 amounted to €11.9m (deteriorated by €5.6m vs. a year ago). The positive variance of €5.6m between continued and total operations is a result of our participation disposal in Taiwan. In 4Q22, **NIATMI** shaped at €12.4m vs €-18.0m in 4Q21 both on a total and continued basis.

⁶ Operating Expenses analysis excludes expenditures related to capital structure optimization.

⁷ EBITDA analysis excludes Depreciation & Amortization, and expenditures related to capital structure optimization.

CASH-FLOW

- Operating Cash-flow** in FY22 amounted to €96.3m, decreased by €11.3m, compared to FY21, mainly impacted by the unfavourable working capital movement due to timing and the negative variance from tax payments, attributed to the income tax return received on behalf of the parent company the prior year.
- Net CAPEX** in FY22 was €26.5m, higher by €3.6m compared to FY21, with US projects consuming most of the CAPEX needs.
- Net Debt**, as of December 31st, 2022, stood at €490.5m, decreased by €6.7m compared to December 31st, 2021. Recent restructuring actions along with delivery of healthy cash flows⁸ resulted in the improvement of net debt position and leverage ratios (Net Debt / EBITDA at 4.0x in FY22 vs. 4.5x in FY21).

Net Debt Movement, FY22
in € million

⁸ Free Cash Flow defined as "Net Cash from Operating activities" adjusted for "Net Dividends", "Net Capex", "Repayment of leasing obligations", "Reorganizations costs paid" and "Exchange differences".

OUTLOOK

Economies around the world are navigating through a challenging period of inflationary pressures and rising interest rates that weigh on economic growth and create a wide range of implications on businesses. Increased interest rates have a direct impact on the financing servicing costs of the Intralot Group, while the outlook is that central banks will not start to ease their monetary policy before the end of 2023.

High inflation levels are tightening financial conditions in most regions, impacting most industries. The indirect effects on our Group's business activities from the flagging economic growth and the increase in operating expenses due to wage inflation pressures cannot be overlooked.

The Management of the Company closely monitors geopolitical and economic developments and is ready to take all the necessary measures for protecting its operations.

RECENT / SIGNIFICANT COMPANY DEVELOPMENTS

- On December 20, 2022 INTRALOT announced that its U.S. subsidiary, "INTRALOT, Inc", has signed a five-year contract with the Ohio Lottery to implement its INTRALOT Orion Sportsbook solution. Specifically, INTRALOT will utilize current lottery equipment and infrastructure to facilitate the sports betting journey for retailers and customers throughout the state of Ohio. The project went live in January 2023 in about 1,000 retail locations. "INTRALOT, Inc." has received a provisional license through the Ohio Casino Control Commission to operate this contract and expects the final five-year license to be issued shortly.
- On February 15, 2023 INTRALOT S.A. announced that Mr. Nikolaos Nikolakopoulos steps down as Member of the Board and Deputy CEO in order to become CEO of its 100% subsidiary "INTRALOT, Inc", in the United States.
- On March 21, 2023 INTRALOT announced that Mr. Fotis Konstantellos steps down as Member of the Board and Deputy CEO. He is replaced as Member of the BoD by Mr. Konstantinos Farris who will also assume the position of Group Chief Technology Officer. Mr. Farris had served as CTO of INTRALOT in the years 1997-2016.
- On March 21, 2023 INTRALOT, Inc announced the appointment of Mr. Richard Bateson as Chief Commercial Officer. Mr. Bateson will be joining the US senior management team reporting directly to INTRALOT US's CEO.
- On April 6, 2023 INTRALOT announced that its U.S. subsidiary, "INTRALOT, Inc", signed a 3-year contract, including an option of three annual extensions, with British Columbia Lottery Corporation (BCLC) for the provision of its next-generation sports betting platform INTRALOT Orion and relevant managed services, to enable the operations and management of BCLC's retail sportsbook.
