2. NOTES TO THE INTERIM FINANCIAL STATEMENTS

2.1.1 Basis of preparation of the Financial Statements

The attached financial statements have been prepared on the historical cost basis, except for the financial assets measured at fair value through other comprehensive income and the derivative financial instruments that are measured at fair value, or at cost if the difference is not a significant amount, and on condition that the Company and the Group would continue as a going concern, as described below. The attached financial statements are presented in Euros and all values are rounded to the nearest thousand (€000) except if indicated otherwise.

Going concern

The Group maintains sufficient liquidity as to cover its cash needs in the near future. The recently completed exchange offers in relation to Facility A (“Notes 2021”) and Facility B (“Notes 2024”) were implemented in a consensual way, achieving extension of the Notes 2021 maturity until at least 2024 and without any changes in the 2024 SUNs indenture (face value of the Notes preserved), while securing significant deleverage through the debt-to-equity exchange. This deleverage will reduce the debt servicing cost substantially and will enhance the liquidity profile of the Group. In addition to this, apart from the New Notes that will be served directly from the US subsidiary, the indenture allows significant flexibility to the Group for cash upstreaming from the US to the Parent to serve cash needs up to a substantial weight. Equivalently important, the successful execution of the two transactions has triggered the upgrade of company’s CFR from rating agencies, which subsequently is expected to strengthen relationships with financing institutions and regain access to funds to allow the Group to implement its business plan and take advantage of new appealing opportunities both in the Lottery as well as in the Sports Betting markets. The recent announcement of the planned Share Capital Increase is expected to contribute in the same direction, further improving the financial position of the Group through the strengthening of Equity, opening new perspectives for the Group in the near future.

In this field, the Management is continuously monitoring the cash flow of the Group and enhancing its efforts for further sales increase through operational improvements, while at the same time focusing on the cost reduction through operational efficiencies and development of synergies.

With respect to the COVID-19 pandemic, already since in 2021, governments have put a lot of effort into the fight against COVID-19 and its restriction of the spread, while the progress of vaccinations, especially in the developed world, allowed governments to loosen restriction measures initially imposed. Economic activity and

consumer demand are picking up in most regions, but the uptake is uneven across industries. The return to normalcy does not seem to be too far away, a fact that creates optimism for our Group.

The energy crisis is shaping a new uncharted era for the global economic outlook. Supply chain disruptions, inflationary pressures and geopolitical tensions around the world, including the war in Ukraine, are expected to play a key role in the global business landscape. The Group is active in the provision of services related to gambling technology in the USA, Oceania, Turkey and Western Europe and is not exposed to direct risks in terms of its operations or dependence on suppliers in Ukraine and/or in Russia. The nature of the Group's global operations is characterized as labor-intensive and is not affected by commodity price volatility, including energy. However, the risk of indirect effects on the Group's activity from the apparent decrease in household disposable income or cuts in entertainment expenses but also a possible increase in operating expenses due to pressures on nominal wage costs and due to the increase of nominal wage costs prices of essential goods, which may result in a reduction in other costs, such as entertainment, including the gambling industry. The Management of the Company constantly monitors the geopolitical and economic developments and is ready to take all the necessary measures to protect its operations.

The potential magnitude of the effects of the global energy crisis as well as the operational risks described above are constantly being assessed. Based on this evaluation and current cash position, substantial uncertainties remain in relation to future flows and assessments of the possibility of a smooth continuation of the activity (going concern).

Taking into consideration all the above, the Management has prepared a detailed business plan with expected cash flows until April 2023, based on which, the above-mentioned magnitude is being considered and carefully assessed. In any case, as described above, the Group maintains ability for cash upstreaming from the US to the Parent to serve additional cash needs up to a substantial degree.

In conclusion, taking into consideration the Expected Cash Flows' Plan and all available information of the foreseeable future, the Management estimates that the Group has ensured its going concern.

In view of the above, the Financial Statements of the Group were prepared on the basis of the going concern principle.

2.1.4 Changes in accounting policies

For the preparation of the financial statements of period ended March 31, 2022, the accounting policies adopted are consistent with those followed in the preparation of the most recent annual financial statements ([December 31, 2021](#)), except for the below mentioned adoption of new standards and interpretations applicable for fiscal periods beginning at January 1, 2022.

Standards and Interpretations compulsory for the fiscal year 2022

New standards, amendments of published standards and interpretations mandatory for accounting periods beginning on 1st January 2022. The Group's assessment of the impact of these new and amended standards and interpretations is set out below.

IFRS 16 (Amendment) 'Covid-19-Related Rent Concessions'

The amendment extends the application period of the practical expedient in relation to rent concessions by one year to cover rental concessions that reduce leases due only on or before 30 June 2022.

IAS 16 (Amendment) 'Property, Plant and Equipment – Proceeds before Intended

The amendment prohibits an entity from deducting from the cost of an item of PP&E any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also requires entities to separately disclose the amounts of proceeds and costs relating to such items produced that are not an output of the entity's ordinary activities.

IAS 37 (Amendment) 'Onerous Contracts – Cost of Fulfilling a Contract'

The amendment clarifies that 'costs to fulfil a contract' comprise the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts. The amendment also clarifies that, before a separate provision for an onerous contract is established, an entity recognises any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract. The Group will assess the impact of the amendment on its financial statements.

IFRS 3 (Amendment) 'Reference to the Conceptual Framework'

The amendment updated the standard to refer to the 2018 Conceptual Framework for Financial Reporting, in order to determine what constitutes an asset or a liability in a business combination. In addition, an exception was added for some types of liabilities and contingent liabilities acquired in a business combination. Finally, it is clarified that the acquirer should not recognise contingent assets, as defined in IAS 37, at the acquisition date.

Annual Improvements to IFRS Standards 2018–2020

Annual Improvements 2018-2020 make minor amendments to IFRS 9 Financial Instruments, IAS 41 Agriculture and the Illustrative Examples accompanying IFRS 16 Leases. The Group will examine the impact of the above on its financial statements.

Standards and Interpretations compulsory after December 31, 2022

The following new standards, amendments and IFRICs have been published but are in effect for the annual fiscal period beginning the 1st of January 2023 and have not been adopted from the Group earlier.

IFRS 17 'Insurance contracts' and Amendments to IFRS 17

Effective for annual periods beginning on or after 1 January 2023.

IFRS 17 has been issued in May 2017 and, along with the Amendments to IFRS 17 issued in June 2020, supersedes IFRS 4. IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the Standard and its objective is to ensure that an entity provides relevant information that faithfully represents those contracts. The new standard solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner. Insurance obligations

will be accounted for using current values instead of historical cost. This amendment does not affect Group financial statements.

IAS 1 (Amendment) 'Classification of liabilities as current or non-current'

Effective for annual periods beginning on or after 1 January 2023.

The amendment clarifies that liabilities are classified as either current or non-current depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date. The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability. The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

IAS 1 (Amendments) 'Presentation of Financial Statements' and IFRS Practice Statement 2 'Disclosure of Accounting policies'

Effective for annual periods beginning on or after 1 January 2023.

The amendments require companies to disclose their material accounting policy information and provide guidance on how to apply the concept of materiality to accounting policy disclosures. The Group will assess the impact of the amendment on its financial statements.

IAS 8 (Amendments) 'Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates'

Effective for annual periods beginning on or after 1 January 2023.

The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates.

The Group will assess the impact of the amendment on its financial statements.

IAS 12 (Amendments) 'Deferred tax related to Assets and Liabilities arising from a Single Transaction'

Effective for annual periods beginning on or after 1 January 2023.

The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. This will typically apply to transactions such as leases for the lessee and decommissioning obligations. The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

IFRS 17 (Amendment) 'Initial Application of IFRS 17 and IFRS 9 – Comparative Information'

Effective for annual periods beginning on or after 1 January 2023.

The amendment is a transition option relating to comparative information about financial assets presented on initial application of IFRS 17. The amendment is aimed at helping entities to avoid temporary accounting mismatches between financial assets and insurance contract liabilities, and therefore improve the usefulness of comparative information for users of financial statements. This amendment does not affect Group financial statements. This amendment has not yet been endorsed by the European Union.

The Group will assess the impact of the amendment on its financial statements.

Also, the Group defines "EBIT" as "Operating Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) on net monetary position", "Exchange Differences", "Interest and similar income", "Interest and similar expenses",

Project EBITDA of the Company

For the calculation of the project EBITDA of the Company, the direct costs of the projects are allocated directly to the projects for which they are carried out. Payroll costs related to the Company's production segments are recorded in "Cost of Sales" and are allocated to projects based on man effort at Company level. "Distribution Expenses" and "Administration Expenses" are monitored per project and allocated to them based on man effort at Company level. "Research and Development Expenses" are allocated to the projects in proportion to the revenues of each project in the total revenue of the Company. Furthermore, for the calculation of the Company's "Gross" results per project, the relevant depreciation of tangible and intangible assets is accounted and the allocated operating "Distribution", "Administration" and "Research and Development" expenses are deducted. In cases where the hours of work are redistributed from one project to another then the costs of disposal, administration and research and development are calculated accordingly.

2.1.6 Significant accounting judgments estimates and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the amounts of revenues, expenses, assets liabilities and disclosures of contingent liabilities that included in the financial statements. On an ongoing basis, management evaluates its judgements, estimates and assumptions that mainly refer to goodwill impairment, allowance for doubtful receivables – expected credit losses, provision for staff retirement indemnities, provision for impairment of inventories value, impairment of tangible and intangible assets as well as estimation of their useful lives, recognition of revenue and expenses, pending legal cases, provision for income tax and recoverability of deferred tax assets. These judgements, estimates

and assumptions are based on historical experience and other factors including expectations of future events that are considered reasonable under the circumstances.

The key judgements, estimates and assumptions concerning the future and other key sources of uncertainty at the reporting date of the interim condensed financial statements for the period ended on March 31, 2022 and have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year, are consistent with those applied and were valid at the reporting date of the annual financial statements [December 31, 2021](#).

More specifically, the Management of the Group evaluates the going concern assumption based on the approved business plans that cover a period of five years. Following this, it prepares Expected Cash Flows that cover a period of at least 12 months since the financial statements reporting date.

The estimates and assumptions used to prepare the business plans and Expected Cash Flows are based on historical data as well as on various factors that are considered reasonable given the circumstances, and are reconsidered taking into account current and expected future market conditions. The preparation of business plans also includes long-term assumptions for important economic factors that involve a significant use of Management judgement.

2.1.7 Seasonality and cyclicity of operations

The Group revenue can fluctuate due to seasonality in some components of the worldwide operations. In particular, the majority of the Group sports betting revenue is generated from bets placed on European football, which has an off-season in the European summer that typically causes a corresponding periodic decrease in the Group revenue. In addition, Group revenue from lotteries can be somewhat dependent on the size of jackpots of lottery games during the relevant period. The Group revenue may also be affected by the scheduling of major football events that do not occur annually, notably the FIFA World Cup and UEFA European Championships, and by the performance of certain teams within specific tournaments, particularly where the national football teams, in the markets where the Group earns the majority of its revenue, fail to qualify for the World Cup. Furthermore, the cancellation or curtailment of significant sporting events, for example due to adverse weather, traffic or transport disruption or civil disturbances, may also affect Group revenue. This information is provided to allow for a better understanding of the revenue, however, Group management has concluded that this is not “highly seasonal” in accordance with IAS 34.

Fair value hierarchy

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making these measurements. The levels of the fair value hierarchy are as follows: Level 1: official quoted prices (unadjusted) in markets with significant volume of transactions for similar assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group and the Company held on 31/3/2022 the following assets and liabilities measured at fair value:

Valuation methods and assumptions

The fair value of the financial assets and liabilities is the amount at which the asset could be sold or the liability transferred in a current transaction between market participants, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

- Fair value of the quoted shares (classified as "equity instruments at fair value through other comprehensive income") derives from quoted market closing prices in active markets at the reporting date.
- Fair value of the unquoted shares (classified as "equity instruments at fair value through other comprehensive income") is estimated by reference to the current market value of another item substantially similar or using a DCF model. The valuation through the DCF model requires

management to make certain assumptions about the model inputs, including forecast cash flows, the discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

- Fair value of the quoted bonds is based on price quotations at the reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, obligations under leases, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.
- The Group uses derivative financial instruments such as forward currency contracts, interest rate swaps, currency swaps and other derivatives in order to hedge risks related to interest rates and foreign currency fluctuations. Such derivative financial instruments are measured at fair value at each reporting date. The fair value of these derivatives is measured mainly by reference of the market value and is verified by the financial institutions.

Description of significant unobservable inputs to valuation:

The fair value of unquoted shares (classified as "equity instruments at fair value through other comprehensive income") except that it is sensitive to a reasonably possible change in the forecast cash flows and the discount rate, is also sensitive to a reasonably possible change in growth rates. The valuation requires management to use unobservable inputs in the model, of which the most significant are disclosed in the tables below. The management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

Unquoted shares (classified as "equity instruments at fair value through other comprehensive income")

On 31/3/2022 and 31/12/2021 the Group did not hold any unquoted shares (classified as "Equity instruments valued at fair value through other comprehensive income").

2.21 CONTINGENT LIABILITIES, ASSETS AND COMMITMENTS

A. LITIGATION CASES

a. In Colombia, INTRALOT, on 22nd July 2004, entered into an agreement with an entity called Empresa Territorial para la salud ("Etesa"), under which it was granted with the right to operate games of chance in Colombia. In accordance with terms of the abovementioned agreement, INTRALOT has submitted an application to initiate arbitration proceedings against Etesa requesting to be recognized that there has been a disruption to the economic balance of abovementioned agreement to the detriment of INTRALOT and for reasons not attributable to INTRALOT and that Etesa to be compelled to the modification of the financial terms of the agreement in the manner specified by INTRALOT as well as to pay damages to INTRALOT (including damages for loss of profit) or alternatively to terminate now the agreement with no liability to INTRALOT. The arbitration court adjudicated in favor of Etesa the amount of 23,6 billion Colombian pesos (approx. €5,7m). The application for annulment of the arbitration award filed by INTRALOT before the High Administrative Court was rejected on 25/5/2011. The Company filed a lawsuit before the Constitutional Court of Colombia which was rejected on 18/12/2012. On 31 August 2016, an application was served to the Company requesting to render the abovementioned arbitration decision as executable in Greece which was heard before the Athens One-Member First Instance Court and the decision issued accepted it. The Company filed an appeal against this decision which was rejected by the Athens Court of Appeals. The Company filed, before the Supreme Court, a cassation appeal against the decision of the Athens Court of Appeals which was rejected. The Company filed, before the Athens Court of Appeals, an application for the revocation of the above decision of the Athens Court of Appeals that rejected the appeal, which has been scheduled for hearing on 2 June 2022. The Company has created relative provision in its financial statements part of which (€2,2m) has already been used for the payment to Etesa of a letter of guarantee amounting to 7.694.081.042 Colombian pesos.

b. Against the subsidiary Intralot Holdings International Ltd., a shareholder of LOTROM SA and against LOTROM SA, another shareholders of LOTROM SA, Mr. Petre Ion filed a lawsuit before the competent court of Bucharest requesting that Intralot Holdings International Ltd to be obliged to purchase his shares in LOTROM SA for €2.500.000 and that LOTROM SA to be obliged to register in the shareholders book such transfer. Following the hearing of 28th September 2010 a decision of the court was issued accepting the lawsuit of the plaintiff. Intralot Holdings International Ltd and LOTROM SA filed an appeal which was rejected. The abovementioned companies further filed a recourse before the Supreme Court which was heard and rejected. Mr. Petre Ion initiated an enforcement procedure of the above decision in Romania. The companies will exercise legal means against the enforcement procedure according to the provisions of the Romanian laws.

c. Mr. Petre Ion filed in Romania a lawsuit against Intralot Holdings International Ltd and LOTROM requesting to issue a decision to replace the share purchase contract of its shares in LOTROM SA for €2.500.000 (for which he had filed the above lawsuit) in order to oblige Intralot Holdings International Ltd a) to pay the amount of €400.000 as tax on the above price, b) to sign on the shareholders book for the transfer of the shares, c) to pay the price of the transfer and the legal costs. The Court of First Instance rejected Mr. Petre Ion's lawsuit. Mr. Petre Ion filed an appeal which was heard on 4 November 2014 and was partially accepted. The Company filed an appeal against this decision which was rejected. Following postponements, the case was heard on 10 June 2016 and the respective first instance decision was issued on 19 July 2016; the lawsuit against LOTROM was rejected while it was accepted partially in

respect to its part filed against Intralot Holdings International Ltd., obligating the latter to pay the amount of the purchase and the legal expenses. Both Intralot Holdings International Ltd. and Mr. Petre Ion filed appeals against this decision which was heard and were rejected. The decision became final, while the application for cassation filed by Intralot Holdings International Ltd was rejected. While since 2018 there has been no action by the plaintiff, recently it was notified to Intralot Holdings International Ltd. that, following a unilateral petition of the plaintiff (ex parte procedure, i.e. without Intralot Holdings International Ltd. to be summoned and represented), a decision was issued by the Cypriot court appointing Bank of Cyprus as custodian of the amount of the account held by Intralot Holdings International Ltd. in that bank, as precautionary measure to ensure the payment of the claim of the plaintiff pursuant to the decision of the courts of Romania. This decision has been rendered enforceable in Cyprus by the local court in October 2020 also without any knowledge of Intralot Holdings International Ltd. since the same unilateral procedure ex parte had been followed by the plaintiff. After being informed on the above, Intralot Holdings International Ltd. objected before the court of Cyprus which, on 23 July 2021, didn't accept its arguments. Intralot Holdings International Ltd. filed an appeal against this decision before the competent courts of Cyprus which is pending. Intralot Holdings International Ltd. considers that has valid grounds to deny the execution of the decision in Cyprus.

d. In August 2012, two British Virgin Island companies filed a Complaint in the United States Bankruptcy Court Southern District of Florida, Miami Division, against numerous defendants, including Supreme Ventures Limited ("SVL"), a publicly traded gaming company listed on the Jamaican Stock Exchange in which INTRALOT was holding until 10.10.2017 an indirect shareholding interest. Notably, as per SVL, the lawsuit is based on the same claims, towards third parties, initial shareholders and/or directors of SVL, or not, which were brought in, and were rejected by the Jamaican courts, first by the Supreme Court and then again by the Court of Appeals. INTRALOT is named as a «Relief Defendant» which means that INTRALOT is not alleged to have been part - directly or indirectly - of any wrongdoing, since the alleged by the plaintiffs acts are made before the acquisition of SVL's shares by INTRALOT through the Jamaican Stock Exchange. The lawsuit was rejected by the Court. The other party filed an appeal which is pending. The litigant parties submitted to the Court a joint stipulation of dismissal of the case the Court's decision is expected.

e. On 30 July 2012, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against the company "Hellenic Organization of Horse Racing S.A." (ODIE) requesting the payment of the amount of €2.781.381,15 relating to system maintenance services provided but not paid. The case was heard on 6th May 2015 and a decision was issued accepting Intralot's lawsuit in full. ODIE filed an appeal against this decision which has been heard on 1 November 2018 before the Athens Court of Appeal which was rejected with the decision no. 3153/2019 of the Athens Court of Appeal. The decision has not been further appealed and, therefore, has become final and irrevocable. Moreover, Intralot filed a recourse to the arbitration panel on 13 August 2012 against the same company ODIE requesting the payment of the amount of €9.551.527,34 relating to operational services of integrated system provided but not paid. The arbitration was concluded on 1st March 2013 and the arbitration decision no 27/2013 was issued vindicating Intralot and compelling ODIE to pay to Intralot the total amount requested (€9.551.527,34). In order to secure its claims, Intralot:

a) by virtue of the above arbitration decision, has already recorded on the mortgage books of the Land Registry Office of Kropia a mortgage on a land property of ODIE and specifically on the property where

the Horse Racetrack of Athens in Markopoulo Attica is operating, and on the buildings thereupon, for an amount of €11.440.655,35.

b) by virtue of the decision no 2209/2014 of the Athens Single Member Court of First Instance, has already recorded on the mortgage books of the Land Registry Office of Kropia, a note of mortgage on the same real estate of ODIE for an amount of €9.481.486,11, which, following the issue of the above decision no. 3153/2019 of the Athens Court of Appeal, partially turned to a mortgage for the total amount adjudicated, i.e. for the amount of €2.781.381,15.

c) advanced the procedure of compulsory execution against ODIE in order to execute its claims. Furthermore, on 20 March 2014, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against ODIE requesting the payment of the amount of €8.043.568,69 which is owed to it pursuant to the "Agreement of Maintenance and Operation of the System of the Mutual Betting on Horse Races of ODIE" dated 6 March 2012. The lawsuit was heard on 4 October 2017 and the decision issued accepted the lawsuit. ODIE filed an appeal which was rejected by the Athens Court of Appeals in December 2019. The decision is final. No petition for cassation has been notified to the Company.

The confiscation on the above land property of ODIE in Markopoulo Attica imposed in the frame of the abovementioned procedure of compulsory execution against ODIE, was reversed with the consent of Intralot on 15 December 2015 in execution of the terms of the agreement dated 24 November 2015 between Intralot and ODIE which settled the payment of all above claims of Intralot. Pursuant to this agreement, ODIE assigned to Intralot 2/3 of the rent which it will receive from the lease agreement relating to that real estate to the company "Ippodromies SA". The payment of the assigned rent amounts has already been started.

Intralot filed before the Athens Multi Member Court of First Instance a lawsuit dated 8.3.2021 against ODIE (under liquidation), the company "Hellenic Republic Asset Development Fund SA" (HRADF) and the Greek State, requesting to be recognized that the above agreement is binding, in addition to ODIE, for HRADF and the Greek State, to oblige all defendants to pay to INTRALOT €487.079,32 and to be recognized that all defendants are obliged to pay to INTRALOT the total amount of €4.747.489,91, while HRADF and the Greek State the amount of €12.676.846,6. The case is pending. The hearing has been scheduled for 22 September 2022.

f. A former officer of the Company filed a lawsuit before the Athens First Instance Court requesting to be recognized that the Company had to pay him the amount of €121.869,81 as non-paid wages. The decision issued partially accepted the lawsuit in relation to the amount of €80.685,42. Both parties have filed appeals which are on 24 November 2020. The decision issued by the Athens Court of Appeals accepts the appeal of the Company and totally rejects the appeal of the plaintiff. The decision is final. On 4 March 2022 a petition for cassation has been served to the Company which is scheduled to be heard before the Supreme Court on 25 October 2022.

g. In Cyprus, the National Betting Authority had suspended the Class A license of the company Royal Highgate Pcl Ltd. in which the Company has an indirect participation of approx. 35,08%, initially for a period of two months, alleging non-compliance of Royal Highgate Pcl Ltd. with specific terms of the license. Royal Highgate Pcl Ltd. considering that those requested by the National Betting Authority are beyond the provisions of the law, filed a recourse before the competent administrative court of Nicosia which was heard on 30 March 2018. The decision issued rejects the recourse for typical reasons. Royal

Highgate Pcl Ltd. filed an appeal against this decision which has been heard, following postponement, on 8 March 2021 and was rejected for the same typical reasons. In parallel, Royal Highgate Pcl Ltd. has filed three more recourses against decisions of the National Betting Authority relating to the suspension of the license of Royal Highgate Pcl Ltd. which are all scheduled for hearing, following postponements, on 4 July 2022. National Betting Authority started the procedure for the revocation of the license of Royal Highgate Pcl Ltd. and the latter submitted its arguments on 30 November 2018 without any further actions from the National Betting Authority. On 31 December 2018, the contractual term of the license of Royal Highgate Pcl Ltd. expired.

h. In USA, in South Carolina State, class actions were filed against the local lottery South Carolina Education Lottery Commission and the subsidiary Intralot Inc. for breach of contract with the allegation that because of malfunctioning of the system there were winning tickets which were not paid and claiming a total compensation of approx. 35 million USD (€31,5 million). The local court accepted Intralot Inc.'s motions to dismiss in two lawsuits, holding that the plaintiffs were required to exhaust administrative remedies and failed to do so. The other side filed appeals against such decisions which are pending. The third similar lawsuit was rejected finally by the court. The Group's management, relying on local expert legal counsels' opinion, considers that the lawsuits have low probability of success. It is noted that with regards to such cases, the Group has a respective insurance coverage.

i. A former employee of the Company filed two lawsuits before the Athens First Instance Court requesting, with the first one, the payment of the amount of €133.179,47 for unpaid salaries and €150.000 as compensation for moral damages and, with the second one, the amount of €259.050 for overdue salaries calculated until 3 December 2019 and €150.000 as compensation for moral damages. The first lawsuit was heard on 28 February 2018 and the decision issued partially accepted the lawsuit in relation to the amount of €46.500,82. Both parties filed appeals against this decision which were heard on 22 September 2020 and the decision issued orders the re-hearing of the case after the submission of further evidences. A new hearing date, following a postponement, was scheduled for 20 September. The second lawsuit has been scheduled for hearing, following postponements, on 3 November 2022. The Company had made respective provisions to its financial statements.

j. On 1 April 2019, the Company filed a Request for Arbitration before the ICC International Court of Arbitration requesting to be declared that the defendant Sisal SpA has breached a contract signed with Intralot by using, in Morocco, terminals and the software embedded therein. A decision of the ICC was issued declaring that Sisal SpA has breached the terms of the abovementioned contract and specifically that it has breach the intellectual property rights of Intralot with regards to the software TAPIS embedded in the terminals which Sisal SpA installed in Morocco, it ordered to cease supplying such terminals in Morocco and also ordered their removal until 31 December 2021, it rejected the requests for compensation against the respondent and ordered Sisal SpA to pay part of the costs and expenses of the arbitration.

k. In Morocco, "La Société de Gestion de la Loterie Nationale" ("SGLN") filed a lawsuit against the Company and its subsidiary Intralot Maroc claiming that it exercised unilaterally its option to transfer to it the equipment of Intralot which was used jointly by SGLN and the other local lottery "La Marocaine des Jeux et des Sports" ("MDJS") and, because of Intralot's denial, it suffered damages in the amount of MAD 18.000.000 (€1.678.666,02) which corresponds to the value of the equipment, while, additionally, it requests MAD 34.000.000 (€3.170.813,593) as loss of profit. It is also requesting the

call of the letter of guarantee amounting to MAD 30.000.000 (€2.797.776,7). It is noted that according to the terms of the Intralot's contracts with the two lotteries SGLN & MDJS, the option for the transfer of the equipment as well as any call of the letters of guarantee can only be exercised with a joint request of both entities SGLN & MDJS. The case was scheduled to be heard, following postponements, on 7 June 2021 when a report of a judicial expert was submitted to the court and the court ordered, once more, the submission of a third expert's report which was submitted and a new hearing date has been scheduled for 7 April 2022. The court's decision has been issued and adjudicates the payment to SGLN of the amount of MAD 14.175.752,50 (€1.322.019,67). An appeal was filed against this decision which is pending.

l. In Malta a lawsuit was filed against the subsidiary Maltco Lotteries Ltd. and the company ATG, having its registered offices in Sweden, by a player of horse races betting games who is requesting the payment of the amount of approx. €1,5m as non-paid winnings. The specific betting game is conducted by the company ATG which refused the payment of the requested amount due to breach of the gaming rules by the player. The case has been scheduled for hearing, following postponements, on 12 October 2022.

m. In U.S.A. the funds Northlight European Fundamental Credit Fund, HCN LP and Bardin Hill Investment Partners LP, claiming holding notes due in 2024 amounting approximately to 3,5%-4%, filed a complaint on 29 July 2021 before the US District Court for the Southern District of New York against Intralot and companies of its group (Intralot Capital Luxembourg S.A., Intralot Global Holdings B.V., Intralot, Inc. and Intralot US Securities, B.V.), requesting to be declared that the exchanges of notes due in 2021 and in 2024 breach certain provisions of the indenture agreement governing the notes maturing in 2024, as well as the New York legislation. The plaintiffs amended their complaint by on 31 January 2022 by adding new plaintiffs (Halcyon Eversource Credit LLC, Halcyon Vallee Blanche Master Fund LP, HDML Fund II LLC, CQS Credit Opportunities Master Fund, CQS ACS Fund, CQS Directional Opportunities Master Fund Ltd & BIWA Fund Ltd.) and new defendants (Intralot U.S. Holdings BV and The Law Debenture Trust Corporation P.L.C.). On 31 March 2022, Intralot requested from the court to consider a motion to dismiss. On 21 April 2022, UMB Bank, N.A. filed suit as successor trustee against the above defendants, for alleged breaches of certain provisions of the indenture agreement for the notes maturing in 2024. The suit has been assigned to the same judge as a "related case" and the response of the defendants is due on 8 July 2022. A Plaintiffs' motion seeking a temporary restraining order to enjoin the notes exchanges was denied by the court on 2 August 2021 and the exchanges of notes due in 2021 and in 2024 were completed.

Until 24 May 2022, apart from the legal issues for which a provision has been recognized, the Group Management estimates that the rest of the litigations will be finalized without a material effect on the Group's and the Company's financial position and results.

In the context of Law 2238/94 Art. 82 par. 5 and POL.1159/2011, companies Betting Company SA and Intralot Interactive SA have received a tax certificate for the years 2016-2020 and Intralot Services SA for the years 2016-2018 and 1/1-22/7/2019 when the liquidation process started. Intralot Tech – Single Member SA has received a tax certificate for the fiscal year 2019, while Intralot SA has received a tax certificate for fiscal years 2016-2018 and the issuance of a tax certificate is pending for 2019 & 2020. The Company lodged an administrative appeal against the relevant control sheets resulting in a reduction of taxes to €3,34 million. The Company filed new appeals to the Greek Administrative Courts which did not justify the Company, which filed an appeal before the Council of State. Also, during the tax audit of the years 2014 & 2015, completed in 2020, taxes were charged for accounting differences plus surcharges of €353 thousand. The Company filed appeals as at 31/5/2021 against the relevant control sheets resulting in a reduction of taxes to €301 thousand. The Company has already paid all the taxes and surcharges charged. The Company has formed sufficient relevant tax provisions amounting to €3,5 million.

Finally, a partial VAT audit is in process for the Company following a mandate for the period 1/2/2010-31/10/2012 upon request of assistance from Romanians to the Greek tax authorities on transactions with a Romanian company, as well as a partial tax audit for the fiscal years 2016 & 2017 after an audit mandate (November 2020).

2.23 APPLICATION OF IAS 29 "FINANCIAL REPORTING IN HYPERINFLATIONARY ECONOMIES"

The Group operates in Argentina through its two subsidiaries Tecno Accion SA and Tecno Accion Salta SA. Since the third quarter of 2018, the cumulative 3-year inflation index in Argentina has exceeded 100% and the country is now considered as a hyperinflationary economy for accounting purposes under IAS 29. The Group applied, for the first time in the nine months of 2018, IAS 29 and restated to current purchasing power in the financial statements (transactions and non-cash balances) of the above subsidiaries that use ARS as functional currency and present their financial statements at historical cost. The restatement was made using the (IPIM) Internal Index Wholesale Prices and applied pursuant to IAS 29, as if Argentina has always been a hyperinflationary economy.

The result (after the relevant consolidation eliminations) from the restatement of the non-cash assets, liabilities and transactions of the three months of 2022 following the application of IAS 29 amounted to

a loss of €1.007 thousand and was recorded in the Income Statement (line "Gain/(loss) on net monetary position").

The conversion FX rates of the financial statements of the above subsidiaries were:

Statement of Financial Position:

	31/3/2022	31/12/2021	Change
EUR / ARS	123,00	116,94	5,2%

¹ The Income Statement of the three months of 2022 and 2021 of the Group's subsidiaries operating in Argentina was converted at the closing rate of 31/3/2022 and 31/3/2021 instead of the Avg. 1/1-31/3/2022 and Avg.1/1-31/3/2021 pursuant to IAS 21, paragraph 42a, for hyperinflationary economies.

2.24 SIGNIFICANT FLUCTUATIONS, RECLASSIFICATIONS & REVERSALS

Income Statement

Below are the most significant fluctuations in the Group's Income Statement for the period 1/1- 31/3/2022 compared to 1/1-31/3/2021:

Sale proceeds

Sale proceeds increased by €0,1 million, or by 0,1%, from €97,6 million in the period 1/1-31/3/2021 to €97,7 million in the period 1/1-31/3/2022. This increase is mainly due to the increased revenues of all operating segments of the Group. In particular, Turnover increased by €2,5 million in Argentina (+32,0% on an annual basis), due to the growth of the local market and the easing of pandemic restrictions, due to the increase in Australia by €+1,1 million or +30,6% on an annual basis), in Croatia by €0,9 million after the launch of the lottery solution developed for Hrvatska Lutrija (Croatia's national lottery) and an increase in Morocco by €0,1million. The lowest revenues came from activities in the US by €-1,9 million or -5,1% on an annual basis, which were mainly affected by the non-recurrence of the jackpot that increased sales in the first quarter of 2021 by approximately €4,0 million and lower revenues from our activities in Turkey (€-2,6 million), which are affected exclusively by the inflation of euro (+ 75,8% compared to one year).

Gross Profit

Gross profit decreased by €0,4 million, or by 1,6%, from €25,6 million in the period 1/1-31/3/2021 to €25,2 million in the period 1/1-31/3/2022.

Other Operating Income

Other operating income increased by €0,2 million, or by 3,2%, from €5,5 million in the period 1/1-31/3/2021 to €5,7 million in the period 1/1-31/3/2022. This increase is mainly due to higher income equipment lease income in USA.

Selling Expenses

Selling expenses decreased by €1,9 million, or by 29%, from €6,6 million in the period 1/1-31/3/2021 to €4,7 million in the period 1/1-31/3/2022, despite the increase of Sale proceeds by 0,1%. This decrease was primarily due to lower costs in Greece.

Administrative Expenses

Administrative expenses increased by €2,0 million, or by 13,4%, from €14,7 million in the period 1/1-31/3/2021 to €16,6 million in the period 1/1-31/3/2022. This increase is mainly due to increased costs in the US, which are partially offset by cost reductions in Greece.

Despite the absence of a jackpot that significantly increased the performance of the first quarter of 2021 (US operations), the Group managed to improve its EBITDA through the combined effect of lower payment from our licensed activities and lower Operating Expenses.

Income/(expenses) from participations and investments

Income/(expenses) from participations and investments came up to net income of €0,4 million in the period 1/1-31/3/2022 from net income of €1,1 million in the period 1/1-31/3/2021. This decrease is mainly due to the increased net profits from the sale of securities that took place in the first quarter of 2021.

Gain / (loss) from assets disposal, impairment loss & write off of assets

Gain / (loss) from assets disposal, impairment loss & write off of assets came up to net gain of €0,6 million in the period 1/1-31/3/2022. These gains are due to a reversal of impairment of tangible assets by the Group's parent company, Intralot SA.
