2. NOTES TO THE INTERIM FINANCIAL STATEMENTS

2.1.1 Basis of preparation of the Financial Statements

The attached financial statements have been prepared on the historical cost basis, except for the financial assets measured at fair value through other comprehensive income and the derivative financial instruments that are measured at fair value, or at cost if the difference is not a significant amount, and on condition that the Company and the Group would continue as a going concern, as described below. The attached financial statements are presented in Euros and all values are rounded to the nearest thousand (€000) except if indicated otherwise.

Going concern

The Group maintains sufficient liquidity as to cover its cash needs in the near future. The recently completed exchange offers in relation to Facility A (“Notes 2021”) and Facility B (“Notes 2024”) were implemented in a consensual way, achieving extension of the Notes 2021 maturity until at least 2024 and without any changes in the 2024 SUNs indenture (face value of the Notes preserved), while securing significant deleverage through the debt-to-equity exchange. This deleverage will reduce the debt servicing cost substantially and will enhance the liquidity profile of the Group. In addition to this, apart from the New Notes that will be served directly from the US subsidiary, the indenture allows significant flexibility to the Group for cash upstreaming from the US to the Parent to serve cash needs up to a substantial weight. Equivalently important, the successful execution of the two transactions has triggered the upgrade of company’s CFR from rating agencies, which subsequently is expected to strengthen relationships with financing institutions and regain access to funds to allow the Group to implement its business plan and take advantage of new appealing opportunities both in the Lottery as well as in the Sports Betting markets.

In this field, the Management is continuously monitoring the cash flow of the Group and enhancing its efforts for further sales increase through operational improvements, while at the same time focusing on the cost reduction through operational efficiencies and development of synergies.

It should be noted that unlike 2020, when the COVID-19 pandemic affected adversely Group’s financial results as was the case in many other sectors, since the first quarter of 2021 governments have put a lot of effort into

the fight against COVID-19 while the progress of vaccinations, especially in the developed world, allowed governments to loosen restriction measures. Economic activity and consumer demand are picking up in most regions, but the uptake is uneven across industries. However, the end of the pandemic is not under way as the vaccine uptake in most regions has plateaued and variants of the virus are emerging. The economic fallout from COVID-19 will continue to affect business activities and uncertainty will remain until COVID-19 is fully contained. In addition, the operational risks associated with the micro-environment and the gaming industry as described in the relevant section below, given the Group's current capital structure could potentially negatively impact the Group's future plans.

The potential magnitude of COVID-19 pandemic impact as well as of the operational risks described below, is continuously assessed therefore material uncertainties remain in relation to future flows and going concern considerations.

Taking into consideration all the above, the Management has prepared a detailed business plan with expected cash flows until 31/12/2022, based on which, the above-mentioned magnitude is being considered and carefully assessed. In any case, as described above, the Group maintains ability for cash upstreaming from the US to the Parent to serve additional cash needs up to a substantial degree.

In conclusion, taking into consideration the Expected Cash Flows' Plan and all available information of the foreseeable future, the Management estimates that the Group has ensured its going concern.

In view of the above, the Financial Statements of the Group were prepared on the basis of the going concern principle.

2.1.2 Statement of compliance

These financial statements for the period ended September 30, 2021 have been prepared in accordance with IAS 34 "Interim Financial Reporting". Those interim condensed financial statements do not include all the information and disclosures required by IFRS in the annual financial statements and should be read in conjunction with the Group's and Company's annual financial statements as at [December 31, 2020](#).

2.1.3 Financial Statements

INTRALOT keeps its accounting books and records and prepares its financial statements in accordance with the International Financial Reporting Standards (IFRS) Law 4308/2014 chap. 2, 3 & 4 and current tax regulations and issues its financial statements in accordance with the International Financial Reporting Standards (IFRS).

INTRALOT's Greek subsidiaries keep their accounting books and records and prepare their financial statements in accordance with GAS (L.4308/2014), the International Financial Reporting Standards (IFRS) and current tax regulations. INTRALOT's foreign subsidiaries keep their accounting books and records and prepare their financial statements in accordance with the applicable laws and regulations in their respective countries. For the purpose of the consolidated financial statements, Group entities' financial statements are adjusted and prepared in relation to the requirements of the International Financial Reporting Standards (IFRS).

2.1.4 Changes in accounting policies

For the preparation of the financial statements of period ended September 30, 2021, the accounting policies adopted are consistent with those followed in the preparation of the most recent annual financial statements

(December 31, 2020), except for the below mentioned adoption of new standards and interpretations applicable for fiscal periods beginning at January 1, 2021.

Standards and Interpretations compulsory for the fiscal year 2021

New standards, amendments of published standards and interpretations mandatory for accounting periods beginning on 1st January 2021. The Group's assessment of the impact of these new and amended standards and interpretations is set out below.

IFRS 16 (Amendment) 'Covid-19-Related Rent Concessions'

The amendment provides lessees (but not lessors) with relief in the form of an optional exemption from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for rent concessions in the same way as they would for changes which are not considered lease modifications.

IFRS 4 (Amendment) 'Extension of the Temporary Exemption from Applying IFRS 9'

The amendment changes the fixed expiry date for the temporary exemption in IFRS 4 'Insurance Contracts' from applying IFRS 9 'Financial Instruments', so that entities would be required to apply IFRS 9 for annual periods beginning on or after 1 January 2023.

IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (Amendments) 'Interest rate benchmark reform – Phase 2'

The amendments complement those issued in 2019 and focus on the effects on financial statements when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the reform. More specifically, the amendments relate to how a company will account for changes in the contractual cash flows of financial instruments, how it will account for the change in its hedging relationships and the information it should disclose.

Standards and Interpretations compulsory after December 31, 2021

The following new standards, amendments and IFRICs have been published but are in effect for the annual fiscal period beginning the 1st of January 2022 and have not been adopted from the Group earlier.

IFRS 17 'Insurance contracts' and Amendments to IFRS 17 (effective for annual periods beginning on or after 1 January 2023)

IFRS 17 has been issued in May 2017 and, along with the Amendments to IFRS 17 issued in June 2020, supersedes IFRS 4. IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the Standard and its objective is to ensure that an entity provides relevant information that faithfully represents those contracts. The new standard solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner. Insurance obligations will be accounted for using current values instead of historical cost. The standard has not yet been endorsed by the EU.

IAS 16 (Amendment) 'Property, Plant and Equipment – Proceeds before Intended Use' (effective for annual periods beginning on or after 1 January 2022)

The amendment prohibits an entity from deducting from the cost of an item of PP&E any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also requires entities to separately disclose the amounts of proceeds and costs relating to such items produced that are not an output of the entity's ordinary activities.

IAS 37 (Amendment) 'Onerous Contracts – Cost of Fulfilling a Contract' (effective for annual periods beginning on or after 1 January 2022)

The amendment clarifies that 'costs to fulfil a contract' comprise the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts. The amendment also clarifies that, before a separate provision for an onerous contract is established, an entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract.

IFRS 3 (Amendment) 'Reference to the Conceptual Framework' (effective for annual periods beginning on or after 1 January 2022)

The amendment updated the standard to refer to the 2018 Conceptual Framework for Financial Reporting, in order to determine what constitutes an asset or a liability in a business combination. In addition, an exception was added for some types of liabilities and contingent liabilities acquired in a business combination. Finally, it is clarified that the acquirer should not recognize contingent assets, as defined in IAS 37, at the acquisition date.

IAS 1 (Amendment) 'Classification of liabilities as current or non-current' (effective for annual periods beginning on or after 1 January 2023)

The amendment clarifies that liabilities are classified as either current or non-current depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date. The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability. The amendment has not yet been endorsed by the EU.

IAS 1 (Amendments) 'Presentation of Financial Statements' and IFRS Practice Statement 2 'Disclosure of Accounting policies' (effective for annual periods beginning on or after 1 January 2023)

The amendments require companies to disclose their material accounting policy information and provide guidance on how to apply the concept of materiality to accounting policy disclosures. The amendments have not yet been endorsed by the EU.

IAS 8 (Amendments) 'Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates' (effective for annual periods beginning on or after 1 January 2023)

The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. The amendments have not yet been endorsed by the EU.

IAS 12 (Amendments) 'Deferred tax related to Assets and Liabilities arising from a Single Transaction' (effective for annual periods beginning on or after 1 January 2023)

The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. This will typically apply to transactions such as leases for the lessee and decommissioning obligations. The amendments have not yet been endorsed by the EU.

Annual Improvements to IFRS Standards 2018–2020 (effective for annual periods beginning on or after 1 January 2022)**IFRS 9 'Financial instruments'**

The amendment addresses which fees should be included in the 10% test for derecognition of financial liabilities. Costs or fees could be paid to either third parties or the lender. Under the amendment, costs or fees paid to third parties will not be included in the 10% test.

IFRS 16 'Leases'

The amendment removed the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 of the standard in order to remove any potential confusion about the treatment of lease incentives.

The Group will assess the impact of the amendment on its financial statements. These amendments have not yet been endorsed by the European Union.

2.1.5 EBITDA & EBIT

International Financial Reporting Standards (IFRS) do not define the content of the "EBITDA" & "EBIT". The Group taking into account the nature of its activities, defines "EBITDA" as "Operating Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) on net monetary position", "Exchange Differences", "Interest and similar income", "Interest and similar expenses", "Income/(expenses) from participations and investments", "Write-off and impairment loss of assets", "Gain/(loss) from assets disposal", "Reorganization costs" and "Assets depreciation and amortization". Also, the Group defines "EBIT" as "Operating Profit/(Loss) before tax" adjusted for the figures "Profit/(loss) from equity method consolidations", "Profit/(loss) on net monetary position", "Exchange Differences", "Interest and similar income", "Interest and similar expenses", "Income/(expenses) from participations and investments", "Write-off and impairment loss of assets" and "Gain/(loss) from assets disposal".

Project EBITDA of the Company

For the calculation of the project EBITDA of the Company, the direct costs of the projects are allocated directly to the projects for which they are carried out. Payroll costs related to the Company's production segments are recorded in "Cost of Sales" and are allocated to projects based on man effort at Company level. "Distribution Expenses" and "Administration Expenses" are monitored per project and allocated to them based on man effort at Company level. "Research and Development Expenses" are allocated to the projects in proportion to the revenues of each project in the total revenue of the Company. Furthermore, for the calculation of the Company's "Gross" results per project, the relevant depreciation of tangible and intangible assets is accounted and the allocated operating "Distribution", "Administration" and "Research and Development" expenses are deducted. In cases where the hours of work are redistributed from one project to another then the costs of disposal, administration and research and development are calculated accordingly.

2.1.6 Significant accounting judgments estimates and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the amounts of revenues, expenses, assets liabilities and disclosures of contingent liabilities that included in the financial statements. On an ongoing basis, management evaluates its judgements, estimates and assumptions that mainly refer to goodwill impairment, allowance for doubtful receivables – expected credit losses, provision for staff retirement indemnities, provision for impairment of inventories value, impairment of tangible and intangible assets as well as estimation of their useful lives, recognition of revenue and expenses, pending legal cases, provision for income tax and recoverability of deferred tax assets. These judgements, estimates and assumptions are based on historical experience and other factors including expectations of future events that are considered reasonable under the circumstances.

The key judgements, estimates and assumptions concerning the future and other key sources of uncertainty at the reporting date of the interim condensed financial statements for the period ended on September 30, 2021 and have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year, are consistent with those applied and were valid at the reporting date of the annual financial statements [December 31, 2020](#).

As a result of the effects of the spread of the COVID-19 pandemic, the Group Management reviewed estimates of future cash flows that were used to estimate the recoverable amount of its investments and intangible assets. This review did not show any impairment other than those mentioned in the note [2.6](#).

More specifically, the Management of the Group evaluates the going concern assumption based on the approved business plans that cover a period of five years. Following this, it prepares Expected Cash Flows that cover a period of at least 12 months since the financial statements reporting date.

In the present fiscal year, given the COVID-19 pandemic, the Management of the Group has extended the evaluation period of going concern in order to cover a period until 31/12/2022.

The estimates and assumptions used to prepare the business plans and Expected Cash Flows are based on historical data as well as on various factors that are considered reasonable given the circumstances, and are reconsidered taking into account current and expected future market conditions. The preparation of business plans also includes long-term assumptions for important economic factors that involve a significant use of Management judgement.

2.1.7 Seasonality and cyclicity of operations

The Group revenue can fluctuate due to seasonality in some components of the worldwide operations. In particular, the majority of the Group sports betting revenue is generated from bets placed on European football, which has an

off-season in the European summer that typically causes a corresponding periodic decrease in the Group revenue. In addition, Group revenue from lotteries can be somewhat dependent on the size of jackpots of lottery games during the relevant period. The Group revenue may also be affected by the scheduling of major football events that do not occur annually, notably the FIFA World Cup and UEFA European Championships, and by the performance of certain teams within specific tournaments, particularly where the national football teams, in the markets where the Group earns the majority of its revenue, fail to qualify for the World Cup. Furthermore, the cancellation or curtailment of significant sporting events, for example due to adverse weather, traffic or transport disruption or civil disturbances, may also affect Group revenue. This information is provided to allow for a better understanding of the revenue, however, Group management has concluded that this is not “highly seasonal” in accordance with IAS 34.

2.2 INFORMATION PER SEGMENT

Goodwill and Intangible assets with indefinite useful life impairment test

Management tests goodwill for impairment annually (December 31) or more frequently if events occur or changes in conditions indicate that the carrying value may have been reduced in accordance with accounting practice described in note 2.1.6 «Business Combination and Goodwill» of the annual Financial Statements of [December 31, 2020](#).

The Group proceeded with a goodwill impairment test on 31/12/2020 and the basic assumptions used to determine the recoverable amount are described below. The test on 31/12/2020 did not conclude to goodwill impairment. The Group is currently evaluating all possible options for its presence in the Turkish market through its subsidiary Bilyoner taking into consideration the terms and conditions of the new fixed-term contract until 2029 on the one hand and the local economy fundamentals on the other. The goodwill impairment test revealed an impairment loss of € 4.097 thousand, which was recorded in the Income Statement (note [2.6](#)).

The recoverable amounts of cash generating units have been determined based on value in use calculations using appropriate estimates regarding future cash flows and discount rates.

Specifically, goodwill arising on consolidation of acquired subsidiaries and intangible assets with indefinite useful life are allocated to the following cash generating units (CGU) by geographical area. Goodwill impairment testing is performed on subsidiary level.

Carrying amount:

CGU	Goodwill		Intangible assets with indefinite useful life	
	30/9/2021 ¹	31/12/2020	30/9/2021	31/12/2020
European Union	0	0	0	0
America	309	344	31	25
Other countries	0	4.637	0	0
Total	309	4.981	31	25

¹ Net decrease in goodwill during the nine months of 2021 by €4.672 thousand due to provision impairment amount to €4.097 thousand as mentioned above, as well as amount to €575 thousand due to foreign currency translation losses from goodwill valuations related to foreign subsidiaries acquisitions, made by the Group in past periods, with functional currency other than Euro.

Key assumptions:

The recoverable amount of each CGU is determined according to the calculations of value in use. The determination is obtained by the present value of estimated future cash flows expected to be generated by each

CGU (discounted cash flow method - DCF). The cash flows are derived from the most recent approved by the management budgets for the next three years and do not include estimated future cash inflows or outflows expected to arise from future restructurings or from improving or enhancing the asset's performance which is tested for impairment. The expected cash flow projections beyond the period covered by the most recent budgets is estimated by extrapolating the projections based on the budgets, using a steady or declining growth rate for subsequent years, which does not exceed the long-term average growth rate for products, industries, countries in which the Group operates, or for the market in which the asset is used. The Group makes estimates beyond the period of three years where it has signed revenue contracts beyond three years as well as in cases where management believes that based on market data and renewals track record of the Group, the renewal of the relevant contracts beyond the three year period is very possible. Cash flow projections are based on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset, giving greater weight to external evidence. Management assesses the reasonableness of the assumptions underlying the current cash flow projections by examining the causes of differences between past cash flow projections and actual cash flows. Management also ensures that the assumptions on which its current cash flow projections are based are consistent with past actual outcomes, provided that subsequent events or circumstances that did not exist when those actual cash flows were generated make this appropriate.

The value in use for CGUs affected (has sensitivity) of the following key factors (assumptions):

- Sales
- Growth rate in perpetuity (Perpetual Growth Rates), and
- Discount rates

Sales:

Sales projections are derived from estimates of local management of various subsidiaries. These projections are based on careful assessments of various factors, such as past performance, estimates of growth of the local market, competition - if exists, possible changes in the institutional framework governing the gambling market, the economic situation of the gambling industry and the market in general, new opportunities such as lotteries privatizations, etc.

Sales growth rate:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	20,0% - 68,1%	20,0% - 36,8%
Other countries	11,0% - 63,3%	20,2% - 27,8%

Growth rate in perpetuity

The factors taken into account for the calculation of the growth rate in perpetuity derive from external sources and include among others, the level of maturity of each market, the existence of barriers to entry for competitors, the economic situation of the market, existing competition and technology trends.

Growth rate in perpetuity:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	10,0%	10,0%
Other countries	11,0%	11,0%

Discount rates:

The discount rates represent the current market assessments of the risks personalized for each CGU, having made the necessary adjustments for the time value of money and possible risks specific to any assets that have not been included in the cash flow projections. The calculation of discount rates based on specific conditions under which the Group and its operating segments operate and calculated through the weighted average cost of capital method (WACC). The WACC takes into account both debt and equity. The cost of equity derives from the expected return that Group investors have for their investment. The Cost of debt is based on the interest rate of the loans that the Group must facilitate. The specific risk of each country is incorporated by implementing individualized sensitivity factors «beta» (beta factors). The sensitivity factors «beta» are evaluated annually based on published market data.

Discount rates:

CGU	2020	2019
European Union	n/a	n/a
Other Europe	n/a	n/a
America	37,8%	41,8%
Other countries	21,6%	19,3%

Recoverable amount sensitivity analysis:

On 31/12/2020, the Group analyzed the sensitivity of the recoverable amounts in a reasonable and possible change of some of the basic assumptions (such as the change of a (1,0) of a percentage point to the growth rate in perpetuity and the change of the discount rates of a (1,0) percentage point). This analysis does not show a situation in which the carrying amount of the Group's significant CGUs exceeds their recoverable amount.

On June 30th, 2021, the Issuer utilized the Redemption Facility of €147.607.487 provided by certain members of the Ad Hoc Group (the "Redemption Facility Providers") and redeemed the same amount of 2021 SUNs at 100% of the principal amount pro rata plus accrued interest. ("TopCo"), with minimum acceptance condition €68.176.000 and maximum acceptance amount €169.100.000.

On August 3rd, 2021, New Notes with a nominal value of \$242.111.911 due September 2025 were issued by US based Intralot, Inc., in exchange for existing Notes maturing in September 2021 with nominal value of €247.471.724,07 (corresponding to an 18% discount), which were then cancelled. Following the finalization of the above two agreements, INTRALOT achieved its two goals related to its capital structure, to refinance the Notes due September 2021 and to reduce by €163 millions its total

debt liabilities of nominal value. The management estimated that the carrying value of cash and cash equivalents, trade and other receivables, trade and other payables approximates their fair value, primarily because of their short-term maturities.

Fair value hierarchy

The Group classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making these measurements. The levels of the fair value hierarchy are as follows:
 Level 1: official quoted prices (unadjusted) in markets with significant volume of transactions for similar assets or liabilities

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group and the Company held on 30/9/2021 the following assets and liabilities measured at fair value:

Valuation methods and assumptions

The fair value of the financial assets and liabilities is the amount at which the asset could be sold or the liability transferred in a current transaction between market participants, other than in a forced or liquidation sale.

The following methods and assumptions are used to estimate the fair values:

- Fair value of the quoted shares (classified as "equity instruments at fair value through other comprehensive income") derives from quoted market closing prices in active markets at the reporting date.
- Fair value of the unquoted shares (classified as "equity instruments at fair value through other comprehensive income") is estimated by reference to the current market value of another item substantially similar or using a DCF model. The valuation through the DCF model requires management to make certain assumptions about the model inputs, including forecast cash flows, the discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.
- Fair value of the quoted bonds is based on price quotations at the reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, obligations under leases, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.
- The Group uses derivative financial instruments such as forward currency contracts, interest rate swaps, currency swaps and other derivatives in order to hedge risks related to interest rates and foreign currency fluctuations. Such derivative financial instruments are measured at fair value at each reporting date. The fair value of these derivatives is measured mainly by reference of the market value and is verified by the financial institutions.

Description of significant unobservable inputs to valuation:

The fair value of unquoted shares (classified as "equity instruments at fair value through other comprehensive income") except that it is sensitive to a reasonably possible change in the forecast cash flows and the discount rate, is also sensitive to a reasonably possible change in growth rates. The valuation requires management to use unobservable inputs in the model, of which the most significant are disclosed in the tables below. The management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

Unquoted shares (classified as "equity instruments at fair value through other comprehensive income")

On 30/9/2021 and 31/12/2020 the Group did not hold any unquoted shares (classified as "Equity instruments valued at fair value through other comprehensive income").

Sideris – Andreas Sideris Sons O.E.", (b) the Foundation of Economic and Industrial Researches (IOBE), (c) Mr. Theodosios Palaskas, Director of Research of IOBE, (d) the Kokkalis Foundation, and (e) INTRALOT, a lawsuit of Mr. Charalambos Kolymbalis, was filed on 8th March 2007 before the Multi-member Athens Court of First Instance. With his lawsuit, the plaintiff requests to be recognized as the sole creator of the project entitled "The financial consequences of sports in Greece" and his intellectual property right on this, and that the amount of €300.000 to be paid to him as monetary compensation for moral damages. Date of the hearing was set the 20th of February 2008 when it was postponed for 4th March 2009 and then again for 24th February 2010; on that date the hearing of the case was cancelled due to strike of the judicial secretaries. New hearing date was scheduled the 23rd of May 2012 when the case was heard and the decision no. 5724/2012 of the Athens Multi-member Court of First Instance was issued which dismissed the lawsuit. On 17 October 2015 an appeal was served to the company against the above decision, which was scheduled to be heard before

the Athens Court of Appeals on 11 February 2016; on that date the hearing was postponed for 22 September 2016 due to lawyers strike when it was cancelled, while following a request of the plaintiff a new hearing date is set for 9 March 2017 when the case has been heard and a decision of the Court of Appeals was issued which ordered the repeat of the appeal's hearing. The date for the hearing was set for the 22nd of February 2018 when the case was heard and decision no. 3253/2018 of the Athens Court of Appeals was issued which rejected the appeal; until now, no application for cassation was has been filed by the opponent.

b. In Colombia, INTRALOT, on 22nd July 2004, entered into an agreement with an entity called Empresa Territorial para la salud ("Etesa"), under which it was granted with the right to operate games of chance in Colombia. In accordance with terms of the abovementioned agreement, INTRALOT has submitted an application to initiate arbitration proceedings against Etesa requesting to be recognized that there has been a disruption to the economic balance of abovementioned agreement to the detriment of INTRALOT and for reasons not attributable to INTRALOT and that Etesa to be compelled to the modification of the financial terms of the agreement in the manner specified by INTRALOT as well as to pay damages to INTRALOT (including damages for loss of profit) or alternatively to terminate now the agreement with no liability to INTRALOT. The arbitration court adjudicated in favor of Etesa the amount of 23,6 billion Colombian pesos (approx. €5,4m). The application for annulment of the arbitration award filed by INTRALOT before the High Administrative Court was rejected. The Company filed a lawsuit before the Constitutional Court which was rejected. On 31 August 2016, an application was served to the Company requesting to render the abovementioned arbitration decision as executable in Greece which was heard before the Athens One-Member First Instance Court and the decision issued accepted it. The Company filed an appeal against this decision which was rejected by the Athens Court of Appeals. The Company filed, before the Supreme Court, a cassation appeal against the decision of the Athens Court of Appeals which was rejected. The Company has created relative provision in its financial statements part of which (€2,2m) has already been used for the payment to Etesa of a letter of guarantee amounting to 7.694.081.042 Colombian pesos.

c. Against the subsidiary Intralot Holdings International Ltd., a shareholder of LOTROM SA and against LOTROM SA, another shareholders of LOTROM SA, Mr. Petre Ion filed a lawsuit before the competent court of Bucharest requesting that Intralot Holdings International Ltd to be obliged to purchase his shares in LOTROM SA for €2.500.000 and that LOTROM SA to be obliged to register in the shareholders book such transfer. Following the hearing of 28th September 2010 a decision of the court was issued accepting the lawsuit of the plaintiff. Intralot Holdings International Ltd and LOTROM SA filed an appeal which was rejected. The abovementioned companies further filed a recourse before the Supreme Court which was heard and rejected. Mr. Petre Ion initiated an enforcement procedure of the above decision in Romania. The companies will exercise legal means against the enforcement procedure according to the provisions of the Romanian laws.

d. Mr. Petre Ion filed in Romania a lawsuit against Intralot Holdings International Ltd and LOTROM requesting to issue a decision to replace the share purchase contract of its shares in LOTROM SA for €2.500.000 (for which he had filed the above lawsuit) in order to oblige Intralot Holdings International Ltd a) to pay the amount of €400.000 as tax on the above price, b) to sign on the shareholders book for the transfer of the shares, c) to pay the price of the transfer and the legal costs. The Court of First Instance rejected Mr. Petre Ion's lawsuit. Mr. Petre Ion filed an appeal which was heard on 4 November

2014 and was partially accepted. The Company filed an appeal against this decision which was rejected. Following postponements, the case was heard on 10 June 2016 and the respective first instance decision was issued on 19 July 2016; the lawsuit against LOTROM was rejected while it was accepted partially in respect to its part filed against Intralot Holdings International Ltd., obligating the latter to pay the amount of the purchase and the legal expenses. Both Intralot Holdings International Ltd. and Mr. Petre Ion filed appeals against this decision which was heard and were rejected. The decision became final, while the application for cassation filed by Intralot Holdings International Ltd was rejected. While since 2018 there has been no action by the plaintiff, recently it was notified to Intralot Holdings International Ltd. that, following a unilateral petition of the plaintiff (ex parte procedure, i.e. without Intralot Holdings International Ltd. to be summoned and represented), a decision was issued by the Cypriot court appointing Bank of Cyprus as custodian of the amount of the account held by Intralot Holdings International Ltd. in that bank, as precautionary measure to ensure the payment of the claim of the plaintiff pursuant to the decision of the courts of Romania. This decision has been rendered enforceable in Cyprus by the local court in October 2020 also without any knowledge of Intralot Holdings International Ltd. since the same unilateral procedure ex parte had been followed by the plaintiff. After being informed on the above, Intralot Holdings International Ltd. objected before the court of Cyprus which, on 23 July 2021, didn't accept its arguments. Intralot Holdings International Ltd. filed an appeal against this decision before the competent courts of Cyprus which is pending. Intralot Holdings International Ltd. considers that has valid grounds to deny the execution of the decision in Cyprus.

e. In August 2012, two British Virgin Island companies filed a Complaint in the United States Bankruptcy Court Southern District of Florida, Miami Division, against numerous defendants, including Supreme Ventures Limited ("SVL"), a publicly traded gaming company listed on the Jamaican Stock Exchange in which INTRALOT was holding until 10.10.2017 an indirect shareholding interest. Notably, as per SVL, the lawsuit is based on the same claims, towards third parties, initial shareholders and/or directors of SVL, or not, which were brought in, and were recently rejected by the Jamaican courts, first by the Supreme Court and then again by the Court of Appeals. INTRALOT is named as a «Relief Defendant» which means that INTRALOT is not alleged to have been part - directly or indirectly - of any wrongdoing, since the alleged by the plaintiffs acts are made before the acquisition of SVL's shares by INTRALOT through the Jamaican Stock Exchange. The lawsuit was rejected by the Court. The other party filed an appeal which is pending. Recently the litigant parties submitted to the Court a joint stipulation of dismissal of the case the Court's decision is expected.

f. On 30 July 2012, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against the company "Hellenic Organization of Horse Racing S.A." (ODIE) requesting the payment of the amount of €2.781.381,15 relating to system maintenance services provided but not paid. The case was heard on 6th May 2015 and a decision was issued accepting Intralot's lawsuit in full. ODIE filed an appeal against this decision which has been heard on 1 November 2018 before the Athens Court of Appeal which was rejected with the decision no. 3153/2019 of the Athens Court of Appeal. The decision has not been further appealed and, therefore, has become final and irrevocable. Moreover, Intralot filed a recourse to the arbitration panel on 13 August 2012 against the same company ODIE requesting the payment of the amount of €9.551.527,34 relating to operational services of integrated system provided but not paid. The arbitration was concluded on 1st March 2013 and the arbitration decision no 27/2013 was issued vindicating Intralot and compelling ODIE to pay to Intralot the total amount requested (€9.551.527,34). In order to secure its claims, Intralot:

a) by virtue of the above arbitration decision, has already recorded on the mortgage books of the Land Registry Office of Kropia a mortgage on a land property of ODIE and specifically on the property where the Horse Racetrack of Athens in Markopoulo Attica is operating, and on the buildings thereupon, for an amount of €11.440.655,35.

b) by virtue of the decision no 2209/2014 of the Athens Single Member Court of First Instance, has already recorded on the mortgage books of the Land Registry Office of Kropia, a note of mortgage on the same real estate of ODIE for an amount of €9.481.486,11, which, following the issue of the above decision no. 3153/2019 of the Athens Court of Appeal, partially turned to a mortgage for the total amount adjudicated, i.e. for the amount of €2.781.381,15.

c) advanced the procedure of compulsory execution against ODIE in order to execute its claims. Furthermore, on 20 March 2014, Intralot filed before the Athens Multi-member Court of First Instance a lawsuit against ODIE requesting the payment of the amount of €8.043.568,69 which is owed to it pursuant to the "Agreement of Maintenance and Operation of the System of the Mutual Betting on Horse Races of ODIE" dated 6 March 2012. The lawsuit was heard on 4 October 2017 and the decision issued accepted the lawsuit. ODIE filed an appeal which was rejected by the Athens Court of Appeals in December 2019. The decision is final. No petition for cassation has been notified to the Company.

The confiscation on the above land property of ODIE in Markopoulo Attica imposed in the frame of the abovementioned procedure of compulsory execution against ODIE, was reversed with the consent of Intralot on 15 December 2015 in execution of the terms of the agreement dated 24 November 2015 between Intralot and ODIE which settled the payment of all above claims of Intralot. Pursuant to this agreement, ODIE assigned to Intralot 2/3 of the rent which it will receive from the lease agreement relating to that real estate to the company "Ippodromies SA". The payment of the assigned rent amounts has already been started.

INTRALOT filed before the Athens Multi Member Court of First Instance a lawsuit dated 8.3.2021 against ODIE (under liquidation), the company "Hellenic Republic Asset Development Fund SA" (HRADF) and the Greek State, requesting to be recognized that the above agreement is binding, in addition to ODIE, for HRADF and the Greek State, to oblige all defendants to pay to INTRALOT €487.079,32 and to be recognized that all defendants are obliged to pay to INTRALOT the total amount of €4.747.489,91, while HRADF and the Greek State the amount of €12.676.846,6. The case is pending.

g. A former officer of the Company filed a lawsuit before the Athens First Instance Court requesting to be recognized that the Company had to pay him the amount of €121.869,81 as non-paid wages. The decision issued partially accepted the lawsuit in relation to the amount of €80.685,42. Both parties have filed appeals which are on 24 November 2020. The decision issued by the Athens Court of Appeals accepts the appeal of the Company and totally rejects the appeal of the plaintiff. The decision is final. No petition for cassation has been notified to the Company.

h. In Cyprus, the National Betting Authority had suspended the Class A license of the company Royal Highgate Pcl Ltd. in which the Company has an indirect participation of approx. 35,08%, initially for a period of two months, alleging non-compliance of Royal Highgate Pcl Ltd. with specific terms of the license. Royal Highgate Pcl Ltd. considering that those requested by the National Betting Authority are beyond the provisions of the law, filed a recourse before the competent administrative court of Nicosia which was heard on 30 March 2018. The decision issued rejects the recourse for typical reasons. Royal

Highgate Pcl Ltd. filed an appeal against this decision which has been heard, following postponement, on 8 March 2021 and the issue of the decision is pending. In parallel, Royal Highgate Pcl Ltd. has filed three more recourses against decisions of the National Betting Authority relating to the suspension of the license of Royal Highgate Pcl Ltd. which are all scheduled for hearing, following postponements, on 11 February 2022. National Betting Authority started the procedure for the revocation of the license of Royal Highgate Pcl Ltd. and the latter submitted its arguments on 30 November 2018 without any further actions from the National Betting Authority. On 31 December 2018, the contractual term of the license of Royal Highgate Pcl Ltd. expired.

i. In USA, in South Carolina State, class actions were filed against the local lottery South Carolina Education Lottery Commission and the subsidiary Intralot Inc. for breach of contract with the allegation that because of malfunctioning of the system there were winning tickets which were not paid and claiming a total compensation of approx. 35 million USD (€30,2 million). The local court accepted Intralot Inc.'s motions to dismiss in two lawsuits, holding that the plaintiffs were required to exhaust administrative remedies and failed to do so. The other side filed appeals against such decisions which are pending. The third similar lawsuit was rejected finally by the court. The Group's management, relying on local expert legal counsels' opinion, considers that the lawsuits have low probability of success. It is noted that with regards to such cases, the Group has a respective insurance coverage.

j. A former employee of the Company filed two lawsuits before the Athens First Instance Court requesting, with the first one, the payment of the amount of €133.179,47 for unpaid salaries and €150.000 as compensation for moral damages and, with the second one, the amount of €259.050 for overdue salaries calculated until 3 December 2019 and €150.000 as compensation for moral damages. The first lawsuit was heard on 28 February 2018 and the decision issued partially accepted the lawsuit in relation to the amount of €46.500,82. Both parties filed appeals against this decision which were heard on 22 September 2020 and the decision issued orders the re-hearing of the case after the submission of further evidences. There is no development until today. The second lawsuit has been scheduled for hearing, following postponements, on 9 February 2022. The Company had made respective provisions to its financial statements.

k. On 1 April 2019, the Company filed a Request for Arbitration before the ICC International Court of Arbitration requesting to be declared that the defendant Sisal SpA has breached a contract signed with Intralot by using, in Morocco, terminals and the software embedded therein. A decision of the ICC was issued declaring that Sisal SpA has breached the terms of the abovementioned contract and specifically that it has breach the intellectual property rights of Intralot with regards to the software TAPIS embedded in the terminals which Sisal SpA installed in Morocco, it ordered to cease supplying such terminals in Morocco and also ordered their removal until 31 December 2021, it rejected the requests for compensation against the respondent and ordered Sisal SpA to pay part of the costs and expenses of the arbitration.

l. In Morocco, "La Société de Gestion de la Loterie Nationale" ("SGLN") filed a lawsuit against the Company and its subsidiary Intralot Maroc claiming that it exercised unilaterally its option to transfer to it the equipment of Intralot which was used jointly by SGLN and the other local lottery "La Marocaine des Jeux et des Sports" ("MDJS") and, because of Intralot's denial, it suffered damages in the amount of MAD 18.000.000 (€1.714.775,65) which corresponds to the value of the equipment, while, additionally, it requests MAD 34.000.000 (€3.239.020,67) as loss of profit. It is also requesting the call

of the letter of guarantee amounting to MAD 30.000.000 (€2.857.959,42). It is noted that according to the terms of the Intralot's contracts with the two lotteries SGLN & MDJS, the option for the transfer of the equipment as well as any call of the letters of guarantee can only be exercised with a joint request of both entities SGLN & MDJS. The case was scheduled to be heard, following postponements, on 7 June 2021 when a report of a judicial expert was submitted to the court and the court ordered, once more, the submission of a third expert's report which is pending.

m. In Malta a lawsuit was filed against the subsidiary Maltco Lotteries Ltd. and the company ATG, having its registered offices in Sweden, by a player of horse races betting games who is requesting the payment of the amount of approx. €1,5m as non-paid winnings. The specific betting game is conducted by the company ATG which refused the payment of the requested amount due to breach of the gaming rules by the player. The case has been scheduled for hearing, following postponement, on 1 December 2021.

n. In U.S.A. the funds Northlight European Fundamental Credit Fund, HCN LP and Bardin Hill Investment Partners LP, claiming holding notes due in 2024 amounting approximately to 3,5%-4%, filed a complaint on 29 July 2021 before the US District Court for the Southern District of New York against Intralot and companies of its group (Intralot Capital Luxembourg S.A., Intralot Global Holdings B.V., Intralot, Inc. and Intralot US Securities, B.V.), requesting to be declared that the exchanges of notes due in 2021 and in 2024 breach certain provisions of the indenture agreement governing the notes maturing in 2024, as well as the New York legislation. The plaintiffs have the right to amend their complaint by December 10, 2021 and Intralot shall respond/file a motion to the complaint by January 11, 2022. A Plaintiffs' motion seeking a temporary restraining order to enjoin the notes exchanges was denied by the court on 2 August 2021 and the exchanges of notes due in 2021 and in 2024 were completed.

Until 29/11/2021, apart from the legal issues for which a provision has been recognized, the Group Management estimates that the rest of the litigations will be finalized without a material effect on the Group's and the Company's financial position and results.

2.23 APPLICATION OF IAS 29 "FINANCIAL REPORTING IN HYPERINFLATIONARY ECONOMIES"

The Group operates in Argentina through its two subsidiaries Tecno Accion SA and Tecno Accion Salta SA. Since the third quarter of 2018, the cumulative 3-year inflation index in Argentina has exceeded 100% and the country is now considered as a hyperinflationary economy for accounting purposes under IAS 29. The Group applied, for the first time in the nine months of 2018, IAS 29 and restated to current purchasing power in the financial statements (transactions and non-cash balances) of the above subsidiaries that use ARS as functional currency and present their financial statements at historical cost. The restatement was made using the (IPIM) Internal Index Wholesale Prices and applied pursuant to IAS 29, as if Argentina has always been a hyperinflationary economy.

The result (after the relevant consolidation eliminations) from the restatement of the non-cash assets, liabilities and transactions of the nine months of 2021 following the application of IAS 29 amounted to a profit of €451 thousand and was recorded in the Income Statement (line "Gain/(loss) on net monetary position").

The conversion FX rates of the financial statements of the above subsidiaries were:

Statement of Financial Position:

	30/9/2021	31/12/2020	Change
EUR / ARS	114,24	102,85	11,1%

EUR / ARS ¹	114,24	102,85	11,1%

¹ The Income Statement of the nine months of 2021 and 2020 of the Group's subsidiaries operating in Argentina was converted at the closing rate of 30/9/2021 and 30/9/2020 instead of the Avg. 1/1-30/9/2021 and Avg.1/1-30/9/2020 pursuant to IAS 21, paragraph 42a, for hyperinflationary economies.

2.24 SIGNIFICANT FLUCTUATIONS, RECLASSIFICATIONS & REVERSALS

Income Statement

Below are the most significant fluctuations in the Group's Income Statement for the period 1/1- 30/9/2021 compared to 1/1-30/9/2020:

Sale proceeds

Sale proceeds increased by €59,4 million, or by 24,4%, from €243,4 million in the period 1/1-30/9/2020 to €302,8 million in the period 1/1-30/9/2021. This increase is mainly due to the increased revenues of all operating segments of the Group. In particular, Turnover increased by €24,7 million in the US (mainly due to the strong growth of Lottery activities, which were further enhanced by a significant jackpot in January 2021 and the highest sales of goods in the current period, as well as the start of Sports betting contracts in Montana and Washington, DC at the end of 2020, despite the impact of the negative USD movement), by €16,0 million in Malta (mainly due to the impact of COVID-19 in the first nine months of 2020), by €13,4 million in Argentina (mainly due to local market growth and the impact of COVID-19 in the first nine months of 2020), by €7,3 million in Turkey (due to Bilyoner's improved performance, which was favored by strong online market growth), by €3,7 million in Morocco (mainly due to the impact of COVID-19 in the first nine months of 2020), by €3,0 million in Australia (mainly due to the higher impact of COVID-19 in the nine months of 2020) and by €1,7 million in Croatia (due to the start of a new contract).

Gross Profit

Gross profit increased by €37,3 million, or by 75,8%, from €49,2 million in the period 1/1-30/9/2020 to €86,5 million in the period 1/1-30/9/2021. This increase is mainly driven from the increase in Sale proceeds as analyzed above.

Other Operating Income

Other operating income increased by €3,4 million, or 27,4%, from €12,4 million in the period 1/1-30/9/2020 to €15,8 million in the period 1/1-30/9/2021. This increase is mainly due to higher income equipment lease income in USA.

Selling Expenses

Selling expenses decreased by €1,2 million, or 6,9%, from €17,3 million in the period 1/1-30/9/2020 to €16,1 million in the period 1/1-30/9/2021, despite the increase of Sale proceeds by 24,4%. This decrease was primarily due to lower costs in Greece.

Administrative Expenses

Administrative expenses increased by €0,5 million, or 1,1%, from €47,1 million in the period 1/1-30/9/2020 to €47,6 million in the period 1/1-30/9/2021. This increase is mainly due to increased costs in the US, Australia and Turkey, which are partially offset by cost reductions in Greece.

Reorganization expenses

Reorganization expenses of €16,9 million in the period 1/1-30/9/2021 and €2,9 million in the period 1/1-30/9/2020 refer to advisors' fees regarding the 2021 and 2024 Bonds restructuring.

Other operating expenses

Other operating expenses increased by €1,6 million, from €1,4 million in the period 1/1-30/9/2020 to €3,0 million in the period 1/1-30/9/2021. This increase is mainly due to the higher provisions for contractual fines-penalties, and doubtful provisions of receivables in 2021.

EBITDA

EBITDA increased by €37,3 million, or by 82,3%, from €45,3 million in the period 1/1-30/9/2020 to €82,6 million in the period 1/1-30/9/2021. This increase is mainly driven by the increase in Gross Profit and Other operating income as analyzed above.

EBITDA for the period 1/1-30/9/2021 on a constant currency basis, net of negative FX impact of €8,4 million, amounted to €91,0 million meaning an increase by 101,0% compared to the period 1/1-30/9/2020.

Income/(expenses) from participations and investments

Income/(expenses) from participations and investments came up to net income of €44,2 million in the period 1/1-30/9/2021 from net expense of €3,4 million in the period 1/1-30/9/2020. This improvement is mainly due to the exchange of 34,27% of the share capital of Intralot US Securities B.V. (indirectly parent company of Intralot, Inc.) to holders of existing bonds maturing in 2024 and to increased dividend income in 2021, as well as higher impairment losses on participations and investments in 2020.

Gain / (loss) from assets disposal, impairment loss & write off of assets

Gain / (loss) from assets disposal, impairment loss & write off of assets came up to net loss of €4,1 million in the period 1/1-30/9/2021 from net loss of €0,1 million in the period 1/1-30/9/2020. This burden is mainly due to the impairment provision in 2021 of the recoverable amount of goodwill from the acquisition of subsidiary Bilyoner Interactif Hizmelter AS as a result of signing a new fixed term contract until 2029.

Interest and Similar Expenses

Interest and similar expenses increased by €13,1 million, or 34,9%, from €37,5 million in the period 1/1-30/9/2020 to €50,6 million in the period 1/1-30/9/2021. This increase is mainly due to the costs associated with loan restructuring.

Interest and Related Income

Interest and related income increased by €45,5 million from €1,4 million in the period 1/1-30/9/2020 to €46,9 million in the period 1/1-30/9/2021. This increase is mainly due to the costs associated with loan restructuring ended September 2021.

Exchange Differences

The account "Exchange Differences" in the period 1/1-30/9/2021 of €2,2 million mainly refers to losses of approximately €0,7 million from valuation of cash balances in foreign currency other than the functional currency of each entity, gain of €0,7 million from reclassification of exchange differences reserves to Income Statement applying IFRS 10, as well as gain of approximately €2,2 million mainly from valuation of trade and debt liabilities (intercompany and non) in EUR that various abroad subsidiaries had as at 30/9/2021, with a different functional currency than the Group.

Profit / (loss) from equity method consolidations

Consolidation of associates and joint ventures through the equity method contributed profit of €0,2 million in the period 1/1-30/9/2021 compared to the losses of €1,5 million in the period 1/1-30/9/2020, mainly deriving by the Group's associates in Asia.

Taxes

Taxes in the period 1/1-30/9/2021 amounted to €7,6 million, versus €5,0 million in the period 1/1-30/9/2020. This increase was primarily due to the positive effect of deferred taxation in 2020.

2.25 CORONAVIRUS PANDEMIC (COVID-19) & ENERGY CRISIS IMPACT

Since the first quarter of 2021, governments have put a lot of effort into the fight against COVID-19, while the progress of vaccinations, especially in the developed world, allowed governments to loosen restriction measures. Economic activity and consumer demand are picking up in most regions, but the uptake is uneven across industries. However, the end of the pandemic is not under way as the vaccine uptake in most regions has plateaued and variants of the virus are emerging. The economic fallout from COVID-19 will continue to affect business activities and uncertainty will remain until COVID-19 is fully contained. Gaming market in most of the regions where we operate has substantially improved compared to a year ago, while consumer demand in US remains strong, with positive impact in Lottery market. Based on the current performance of our operations during nine months of 2021 and the actions undertaken by most of our subsidiaries, the EBITDA impact from the pandemic is not expected to be significant and will be limited to c. €3,0m on an annual basis, attributable mainly to the restriction measures imposed in Australia and the impact in Western Europe. The extent to which the COVID-19 pandemic may impact the financial performance in 2021 will depend on future development of the pandemic and the efficiency of the actions taken by the governments. This uncertainty will require us to continually adapt our strategy and initiatives and continuously assess the situation. In any case, all containment measures assumed by our Company remain intact and will be enhanced in order to absorb the potential impact in the financial results of 2021. The health and safety of our team remains our top priority. With this in mind, we have immediately complied with all measures imposed by local governments and used technology in order to enable remote work.

The global energy crisis of 2021 is characterized by the continuing shortage of energy around the world, but also by the surge in prices, affecting countries such as the United Kingdom, China, and, among others, the European Union. Greece experienced a significant increase in prices for all forms of energy. The Company and the Group being labor-intensive companies are not strongly affected by the energy crisis as energy costs are not material. Nevertheless, the Management of the Company monitors the developments daily, and is ready to take all the necessary measures. From our experience so far, we remain optimistic in terms of achieving the goals set for 2021.
